NUMBER 100

THE POSSIBILITY OF A HARD COAL STRIKE CONCERNS COOLIDGE

Washington, Aug. 13.—President Coolidge was engaged today in formulating his first new policy, a policy to protect the public against coal shortage this winter.

The keynote of that policy, according to his advisors is: "There shall be no strike."

Mr. Coolidge's attitude to the grave situation in the hard coal fields as a result of the deadlock between operators and miners was evidenced by his sending George Otis Smith of the U. S. Coal Commission on a flying trip to Gloucester, Mass., to confer with the chairman, John Hayes Hammond.

Back from a hurried conference Dr. Smith reported to the President at the White House today. Hammond will return to Washington tomorrow when the coal situation will be laid before the cabinet.

Mr. Coolidge, it was understood, will insist on another joint meeting of the anthracite operators and miners with an admonition to reach a settlement.

BOOTLEGGERS TRY HARD TO GET OUT OF COUNTY JAIL

The Clearfield County jail does not appear to be a very desirable place in which to tarry, judging by the efforts made to get a parole or commutation of sentence by the different bootleggers, who fall by the wayside hereabouts from time to time.

The jail doors were opened on Saturday for one Joseph Curcio, of DuBois. Joe was sentenced June 14th to pay \$300 fine and costs and serve six months in jail. Judge Bell granted Curcio's release Saturday, according to the order filed, at the request of Rev. W. O. Callahan, who is made a special probation officer to look after Curcio, who is also required to pay the fine and costs imposed and a \$400 bond to guarantee his good behavior for two years.

Joseph Vitterella, also of DuBois, was not so successful in his quest for liberty. Vitterella was sentenced July 9th to pay \$200 fine and costs and serve four months in jail for violating the liquor law. At the time of his sentence James A. Gleason, his attorney, made the statement that Joe was suffering from chronic lumbago and chronic inflammation of the sciatic nerve and that imprisonment would endanger his health. An order accompanied the sentence directing that Jail Physician Cowdick examine Vitterella and report on his condition. Dr. Cowdick reported Joe in fine shape to serve his time, and he was forced to take up the irksome burden.

Some time later Dr. J. I. Pollum and J. I. Brockbank of DuBois, presented a statement to the court setting forth that Vitterella's confinement in jail would be dangerous to his health, stating that his condition was such that he was unable to rise from a chair when sitting down without the assistance of his hands and that he was losing flesh, etc. Dr. Ward O. Wilson was then directed by the court to examine Vitterella and see what he could find. Dr. Wilson agreed with his Clearfield colleague and, while he didn't say so in that many words, in the opinion of the DuBois doctors were talking through their hats, medically speaking, that is if a doctor can speak medically through his headgear.

With the doctors fifty-fifty on the man's condition there was nothing left to do but give each side a chance to maintain its conviction in the case, so Judge Bell has fixed a hearing in the matter for Monday morning, August 27th at 9 o'clock, when and where a decision will be made and it will be determined once for all whether or not Joe Vitterella is a sick man in the eyes of the law.

Andrew Harwick was taken quite seriously ill at his business place on Market street Saturday evening about 9 o'clock. He was taken to his home on South Second street, where he is recuperating very nicely today.

FOUR KILLED IN SEVERE WIND AND RAIN STORM WHICH SWEEPED OHIO AND W. VA. FROM THE NORTHWEST LAST EVENING

Three Are Drowned at Village of Beckley, W. Va., With Half Million Dollar Property Loss Accounted For.

Columbus, O., Aug. 13.—Four persons are known to have perished in a severe wind and rain storm which swept Ohio and West Virginia from the northwest during the night.

At least a dozen persons were injured and thousands of dollars were lost in damaged buildings and crops. The temperature here dropped 23 degrees in five minutes when the storm broke.

Rain swelled streams in the vicinity of Beckley, West Virginia, where three persons were drowned and property damage is estimated at \$500,000. The victims were: Manson Harrah, George Hansot and an unidentified negro.

Walter Kwarsanski was killed by broken electrical wires at Toledo, O.

A small explosion near Charleston, W. Va., cut off all communication lines between Charleston and Stone Coal and Laurel Creek districts to the south.

Unconfirmed reports of large death lists reached Charleston during the night. Attempts to communicate with the flooded areas early today were unavailing.

Attack On Former Home Of Mary Minter Revives Desmond Taylor Case

Los Angeles, Cal., Aug. 13.—Details of a mysterious attack on the former home of Mary Miles Minter, now occupied by Sigrid Holmquist, also a film star, were revealed for the first time today.

Authorities had kept the facts suppressed in the hope of capturing the attackers.

Friends of Miss Minter coupling the attack with a series of strange incidents, are afraid Miss Minter is in the shadow of a carefully planned plot to kill her, one that perhaps had its origin in the famous William Desmond Taylor case.

Miss Minter let her Hollywood house to Miss Holmquist, June 10th. A few days later Miss Holmquist said two men appeared at the door and brushed past the maid into the house. When Miss Holmquist protested, they said: "We are detectives." After looking around they departed.

Miss Holmquist bears a striking resemblance to Miss Minter. Some days later, during a dinner party at the house, Miss Holmquist stepped thru the French windows to the porch. A shot was fired, evidently from the shrubbery on the dark lawn. The bullet grazed Miss Holmquist's shoulder, inflicting a slight flesh wound. Men members of the party rushed out to search the ground but found no one.

A few nights later Miss Holmquist was awakened by the beams of a flash light playing over her face. She screamed. The prowler then departed. Miss Holmquist verified the entire story today.

Meanwhile friends of Mary Miles Minter are attempting to find the connection between the attacks on her former home and on her friend Miss Holmquist, whom she resembles, and the strange occurrences which have caused the former film star to believe she was constantly watched.

Even recently since she has removed to Pasadena, Miss Minter has felt that she is being watched. Unexplained noises at night have so alarmed her that she keeps a revolver under her pillow.

GIRL, 10, JUMPS INTO RIVER AFTER BEING SCOLDED BY MOTHER

Pittsburgh, Pa., Aug. 13.—Following a quarrel in her home early today with her mother, Jennie Asrich, 18, of Ninth street, Braddock, walked to the banks of the Monongahela river and leaped into the stream. She was rescued and carried to her home, where it was said she will recover.

Frank Hancock, Grace Hancock, Mr. and Mrs. John Hancock and daughter Elizabeth, motored to Penn's Cave Sunday.

Detoured Trains Crash; Seven Railway Employees Die; Two Others Hurt

Pueblo, Colo., Aug. 13.—Seven railway employees were killed and two train men and one passenger injured today at Fowler, Colorado in a head-on collision between passenger trains on the Colorado & Southern and Santa Fe Railroad.

Colorado Southern passenger train No. 609 detoured from Walsenburg to Lajunta because of floods in Santa Fe and No. 6 running on schedule from Pueblo west crashed at the west switch at Fowler.

COOLIDGE IN 1924 IS PREDICTION OF SENATOR BORAH

Spokane, Wash., Aug. 12.—Senator Borah, of Idaho, here last night, said he believed President Coolidge was the logical man for the Republican presidential nomination in the next campaign, and called upon the public to give him a chance to make good. The Senator said:

"Fate and circumstances have made Calvin Coolidge President. There are some very difficult problems demanding attention.

"The agricultural situation is extremely serious. The coal problem, in my opinion, will soon be acute. Transportation also requires consideration, and the foreign situation will bring into view the mad policies now plunging Europe into deeper misery.

"If he makes good, or shows in the next few months he is making good, he will certainly be nominated. What the people want is results. If Mr. Coolidge gives results, that is all there is to it. I think he is an able man. I want to see him have a chance to make good.

"No political party can survive the next campaign which does not have clear, definite, constructive and inspiring program. If there ever was a time when the office should be, and in my opinion, will, seek the man, it is now. I have never seen so much political explosive lying around to be touched off as right now. The voters do not care two cents for parties or individuals. They want results. Give the man at the helm a chance."

GUNO QUILTS POST AS CHANCELLOR OF GERMAN REPUBLIC

Berlin, Aug. 12.—The resignation of Chancellor Wilhelm Guno and his entire cabinet was accepted today by President Ebert. Dr. Gustav Stresemann, leader of the German People's party, has been commissioned by President Ebert to form a new government.

After accepting the task, Herr Stresemann had a conference with the representatives of the various parties. The greatest difficulty seems to be in connection with the foreign ministry and it is believed possible that he will take the post himself temporarily.

London, Aug. 12.—With the downfall of the Guno government, the publication of correspondence between the allies, and two fighting speeches by Premier Poincare of France, the reparation situation became decidedly more acute over the week-end.

German Socialists by a decision reached on "Constitution Day" to join with Communists in voting lack of confidence in the Guno ministry today forced the chancellor's resignation.

Great Britain caused a sensation which many believe may lead to a definite break with France and Belgium over reparations when a note in which the legality of the Ruhr occupation is flatly challenged was made public.

On Sunday at Marzelle and Stenay Premier Poincare made two inflammatory speeches in which he recalled the horrors of war times and attempted to inflame his hearers to continued hatred of Germany, declaring occupation of the Ruhr will not end until Germany has paid.

In anticipation of a break between England and France, the French fell to the lowest point of its history. From Hanover, Germany, new and fatal rioting was reported with 11 dead and 50 injured.

Berlin, Aug. 13.—Nine persons were killed and thirty injured when Communists attempted to storm the town hall at Seitz, Saxony today.

Paris, Aug. 13.—France proposals in the British reparation note as "unacceptable" and Premier Poincare probably will reply, flatly refusing.

(Continued On Page Two)

State Aid Hospitals And Homes Are Told How To Apply for Appropriation

By S. P. HOLLINGSWORTH
United Press Staff Correspondent
Harrisburg, Aug. 13.—Hospitals and homes receiving financial assistance from the state were given definite instructions today by Auditor General Samuel S. Lewis on the manner of preparing applications in accordance with the appropriation acts passed by the 1923 legislature.

For nearly two months this question has been hanging fire due to uncertainty of the provisions of the administrative code and the appropriation acts, which Auditor General Lewis finds, in some instances, are in conflict.

The action of the auditor general anticipates general confusion resulting at the close of the first quarter August 31, with the new procedure in operation.

The state aided hospitals are advised by Lewis that "changes in the law make it necessary to provide new forms for the regular quarterly reports." These forms, he told the trustees, will be forwarded to them before the time comes for making the report, rendered under the administrative code on a per diem basis for free services rendered. The reports first go to the Department of Welfare, Lewis advises.

The Trustees of the state aided homes are instructed by the auditor general to submit their requisitions on the same basis as heretofore, there being "no change in the requirements on the part of the department to obtain payment."

It was learned at the Welfare Department that few of the requisitions from all institutions under jurisdiction of that department have reached the office headquarters, the classification managers. Those that have come in have been improperly drawn and had to be sent back. Old forms were used in some instances and in others ordinary note paper.

Assistant Secretary Hunt stated that uncertainty as to the eventual outcome of the negotiations over quoted questions raised by the auditor general and the attorney general as well as the general confusion in all institutions due to changes in procedure have resulted in requisitions being held up pending settlement.

The auditor general assures, in his letters today, that the question so far as forms is concerned will be settled by his department.

(Continued On Page Two)

ROAD BOND ISSUE TO BE VOTED ON IS FIFTY MILLION

Among the proposed amendments to the constitution which will be submitted to the voters of Pennsylvania for their approval or rejection at the election to be held Tuesday, Nov. 6, is one authorizing the state to issue bonds for road construction. This amendment if approved will allow the commonwealth to borrow \$50,000,000.

In 1918, by a majority of 242,000 votes, Pennsylvania voters authorized the first bond issue of \$50,000,000. Since that time Pennsylvania has not the nation in road improvement. Not all of the roads have been built that are needed; hence the proposed new loan.

As amended in 1918, the state constitution provides that "the general assembly may authorize the state to issue bonds to the amount of \$50,000,000 for the purpose of improving and rebuilding the highways of the commonwealth." It is now proposed further to amend that section so that it will read, "The General Assembly may authorize the state to issue bonds to the amount of \$100,000,000 for the purpose of improving and rebuilding the highways of the commonwealth."

The impression is given by the phraseology of this resolution that the voters in November will be asked to authorize a bond issue of \$100,000,000. This impression is wrong. The proposed bond issue is for only \$50,000,000. The first half of the \$100,000,000 mentioned in the joint resolution has already been spent.

The difference between the "one hundred millions of dollars" mentioned in the advertisement and the \$50,000,000 authorized in 1918, is the amount the voters are asked to approve in the coming November election.

Since 1915, Pennsylvania has constructed almost 2,100 miles of durable highway. The highway which has entered in some form. The maintenance forces of the department of highways in the last five years have resurfaced over a thousand miles of macadam road. It is now possible to travel continuously on improved roads in Pennsylvania for a distance of 1,400 miles without covering the same ground twice.

With an additional \$50,000,000 Pennsylvania will be able to complete not only its primary highway system, the entire cost of which is paid by the commonwealth, but will also be able to build a large mileage of secondary roads.

CROP REPORT FOR MONTH OF JULY

Continued dry weather up until the last week of the month caused further decline in the condition of all crops in Pennsylvania according to the report issued today by G. L. Morgan, agricultural statistician for Pennsylvania, United States Bureau of Agricultural Economics.

Corn.
The condition of the crop on August 1 was 82 per cent of a normal, indicating a yield of about 40.3 bushels per acre and a production of 61,313,000 bushels as compared with 69,212,000 bushels last year and 64,470,000 bushels the average production for the past ten years.

Wheat.
The preliminary estimate of the average yield per acre of this season's crop was 18.5 bushels and the total production 24,106,000 bushels. This is compared with 25,234,000 bushels last year's final estimate and 24,197,000 bushels, the average production for the past ten years. The quality of this year's crop is estimated at 9.1 per cent of a normal as compared with 9.1 per cent last year and 9.1 per cent the average quality for the past ten years.

Spring Wheat.
The condition of the crop on August 1 was 80 per cent of a normal, indicating a yield of about 14.3 bushels per acre and a production of 207,000 bushels as compared with 210,000 bushels last year and 228,000 bushels the average production for the past five years.

Oats.
The condition on August 1 was 71 per cent of a normal, indicating a yield of about 27 bushels per acre and

SECOND ATTEMPT TO CAPTURE BERGDOLL ENDS IN FAILURE

Notorious Dodger from
Military Service During
War Badly Beaten
by Would-be Captors.

TWO FROM THE U. S.

Myerbach, Baden, Aug. 11.—(By Cable)—Greener Bergdoll Friday night or a second time escaped from an attempt to kidnap him and spirit him across the border into occupied territory for delivery to American authorities for trial and punishment. Bergdoll himself was badly injured, being beaten over the head with a rubber billy while his assistants were trying to stun and carry him off, a third, together with an American officer giving the name of First Lieutenant G. H. Griffith, and an American chauffeur, Walter Nelson, were captured and badly escaped, finding at the hands of the enraged friends and sympathizers with Bergdoll.

The attempt was pulled off late Friday night in the dark corridor of the Hotel Post and Kroen, belonging to Bergdoll's cousin, while Bergdoll was going to his room about 11 o'clock.

Frank of Assistant Editor of "The Evening Post," provided in advance by a newspaper man, Bergdoll, who was accompanied by his lawyer, Mr. J. H. Griffith, and his chauffeur, Walter Nelson, who were captured and badly escaped, finding at the hands of the enraged friends and sympathizers with Bergdoll.

These circumstances in the kidnapping plot, two Frenchmen and one Englishman, have been scouting around the hotel for the last eight days, spying out the lay of the land, the Frenchmen remaining apparently in the hotel while the two Frenchmen spent their nights in Heidelberg to mislead suspicion and avoid danger. Their visit, however, did not escape notice. The Frenchmen were summoned by the police, ostensibly to obtain payment of the foreigners' tax, but really to ascertain their identity, and thereafter a sharp watch was kept on their doings.

Kidnappers Hid in Sticker's Hotel
Friday night they succeeded in entering the hotel unnoticed and lay in wait for Bergdoll in a corridor leading to his room. They attacked him with rubber mallets and also tried to drag him. Bergdoll escaped, however, got the thumb of one of his assailants into his mouth during the struggle and bit it completely off. He finally succeeded in escaping his captors and shot one kidnapper dead and severely wounded the second. The third who rushed to escape, closely followed by gendarmes, ran down the Heidelberg road toward the automobiles awaiting the kidnappers.

The police arrived before it was possible to get away and arrested Lieutenant Griffith, Nelson and the Englishman.

An angry crowd gathered and threatened to lynch the prisoners but the gendarmes succeeded in leading them to jail.

The Eberbach population is today still in a very ugly mood and many threats are heard, but danger of violence to the prisoners is believed past.

The kidnapping attempt was well organized. All the conspirators were armed and provided with full maps of Eberbach and the surrounding country. A diagram of the hotel with the location of Bergdoll's room and a supply of narcotics to be used in stupefying Bergdoll and enable them to get him across the frontier as a drunken friend if stopped by the German frontier police.

Eberbach, Aug. 11.—The men waiting outside the hotel were in an old American Army automobile with an American shield on the side. They were arrested after being menaced by a crowd.

The German authorities said one

(Continued On Page Four)

HE WAS JUST A PAL TO THEM

Henry Ford, Harvey Firestone and Thomas Edison have started on their annual camping trip. But they have left their best friend behind. They came to see him, though, before leaving. But they saw him in his flag-draped casket. This picture was taken in front of Dr. Harding's home on the morning of the late president's funeral. Rev. Jesse Swank, pastor of the Epworth Methodist church in Marion, who offered the prayer as the casket was tenderly put into the vault, is on the extreme left. Bishop William F. Anderson of Cincinnati, who pronounced the benediction is on the extreme right. On comes Firestone. Edison is second from the end on the right.

ODDS AND ENDS AND THINGS

By J. D. C.

The average American is working 38 minutes a week less than he worked two years ago. So reports national conference board. In the long run, the number of hours worked does not matter as much as how hard we work when we're on the job. It is quite easy to make a day's work of grinding an ax. The board finds that the average American works about fifty hours a week. Obviously, it didn't include the hours of housewives, whose work is never done.

Man's views of what happens after death are always interesting, in view of the mystery of the hereafter. The more prominent the man the more interest in his views or belief on this subject. Thomas A. Edison, the electrical wizard, in a comment made at President Harding's funeral, gave the following as his view of what happens after death:

"The soul after death takes flight," Mr. Edison said, "but in what form and manner is unknown."

Regarding spiritualism, Mr. Edison said he did not believe the spirit returned to earth and communed with those living, but he added, "we know that the soul does exist after death."

"I have not found it possible to demonstrate the existence of the life beyond the grave and I cannot say that men, including the beloved President Harding, live after death."

"There is a great directing head of things and people—a Supreme Being who looks after the destinies of the world. I have faith in a Supreme Being and all my thoughts are regarding the life after death—where the soul goes, what form it takes and its relations to those who are living."

"I am convinced that the body is made up of entities which are intelligent. When one cuts his finger, I believe it is the intelligence of these entities that heals the wound. When one is sick it is the intelligence of these entities that brings convalescence."

"You know there are living cells in the body so tiny that the microscope cannot show them at all. The entity that gives life and motion to the human body is finer still and lies infinitely beyond the reach of our finest scientific instruments. When the entity deserts the body, the body is like a ship without a rudder—deserted, motionless and dead. It is mere clay, as all orthodox Christians believe. I still believe in the religion of Our Lord and Master."

Edison says he "is seeking after the truth and has made much progress" in regard to life after death.

OLD FASHIONED CLOCKS

In lots of jewelry repair shops a casual glance is given these clocks and, "it can't be fixed," is the answer. Here we make a specialty of repairing these clocks and will go to any length to have them running for you as you would like to have them running. It's quite a knack to repair these as often times it requires the making of a piece right here in our shop, as the makers have gone out of business. But we know that these clocks are often time-hallowed heirlooms and you want them to run.

Bring them to us.

W. W. O'BRIEN

Each of the Presidents elected at twenty-year intervals since 1840 have died in office. William H. Harrison, who was elected in 1840, died one month after his inauguration in 1841. Lincoln, first elected in 1860, was assassinated five years later. Garfield, elected in 1880, was assassinated six and one-half months after assuming office. McKinley, elected for the time in 1900, was assassinated in 1901. Harding was elected in 1920.

Did you know there is a Pan-American international committee of women? Well, there is. It was created at a recent scientific conference of all the American republics. It is planning to put on a fine common celebration on Columbus day, October 12, 1928. On this date, in each of the separate countries of the Americas, it will hold big meetings and conferences at which there will be speeches and interesting events which will acquaint each country with the aims, activities and accomplishments of the other American republics. This will lead all of the countries of North and South America to become better acquainted all around, and, "If we knew each other better, we would love each other more."

THE WEATHER THIS WEEK

Weather outlook for period Monday, Aug. 13 to Saturday, August 18, 1923 inclusive.

Generally fair, except occasional thunder showers. Normal temperature.

STATE AID HOSPITAL

(Continued From Page One.)

In the case of the \$5,000 appropriation to insane institutions and other appropriations to state and semi-state institutions, it is likely, payments will be held up until the contemplated suit between the attorney general and the auditor general is settled.

A total of \$15,176,200 has been appropriated by the legislature to institutions coming under jurisdiction of the Welfare Department, according to figures of the Secretary of the Commonwealth. The state owned institutions are to receive \$10,138,800, the semi-state institutions \$76,000, state-aided hospitals \$3,723,400 and the state aided homes and institutions \$554,000, according to the budget officer's figures.

TWILIGHT LEAGUE BASEBALL

The Reedsville Indians play at Glen Richey tonight. They will meet the O'Shanter team on the Reedsville diamond Wednesday evening.

The West Side team beat the Indians 10 to 6 last Friday evening, instead of 6 to 0 as the types made us say Saturday evening. It was the first defeat for the Indians this season and they naturally wanted the figures to be right.

CUNO QUILTS POST AS CHANCELLOR

(Continued From Page One.)

the British suggestion, it was learned semi-officially today.

Semi-official analysis of the British note said the whole tendency of the Downing street communication was to demand diminution of the French claims and abandoning all guarantees, which France considers impossible.

It was considered probable Poincaré would reply protesting the British points which he regards erroneous. Semi-officially it was pointed out that with the exception of a few points, the British note in Cuzon's recent Communication is exactly the same as in the past. Hence France can only be consistent and make the same reply as in the past—a refusal.

NOTICE BAPTISTS

The pastor of St. John's Baptist church will arrive on August 17. Come and hear him preach on Sunday, Aug. 19th, 11 a. m. and 8 p. m.

WILL DRIVE TO CALIFORNIA

Mr. and Mrs. Hy Waters will leave tomorrow for Roseville, California, where they go to visit Mr. Waters' mother. They will make the journey in their car, taking with them a camping outfit and will make their camp where night overtakes them enroute.

FUNERAL OF MRS. ELIZABETH RINEHART

The funeral of Mrs. Elizabeth Rinehart of Graham township, whose death occurred Sunday, will be held from the home of her grandson, Frank Rinehart, at Bigler tomorrow afternoon at 1 o'clock. Services will be held at Fairview church and interment will be made at Fairview cemetery.

AN EASY WAY TO HELP

Community Service Tag Day on Thursday the 16, all day. All over town. If you are the street crowd, the Chautauqua crowd or the Park crowd see that you have a tag. If you are interested in Playgrounds, Girl Scouts, Twilight League base ball, horseshoe pitching or a community recreation of any sort, this is one of the ways to show it.

The Century Plant.
The report that a century plant blooms only once in a hundred years is probably due to the impatience of some of its admirers. In some parts of South America where it grows wild it blooms once in eight years, but when it has been transplanted into greenhouses under artificial conditions its blooming date is much prolonged.

ERITON TROUNCES LOCAL TEAM 5-3 SATURDAY, AUG. 11
The fast-going Eriton baseball team came over to Clearfield Saturday afternoon and added another scalp to their string of trophies by taking our American Legion team into camp by a 5 to 3 score.

Bowes did the twirling for the local team and outpitched Eriton's star "Slick" Dronney and should have had an easy victory, but headless, footless and witless base running simply forced the game on the enemy.

Three times—count them—three juicy times—were rallies nipped in the bud because baserunners went to sleep on the base lines and were "snapped" out by Catcher Liptac before they woke up.

Eriton opened the ball by scoring a run in the very first inning. Kiel got a base on balls, but was forced at second by Williams. Love fanned but Mahaffey's fumble gave Dronney a life, Williams scoring. They added three more in the fourth on a fullslide of four singles and a double, aided by some bum chucking of the ball from the outfield. A couple of errors and a base on balls gave them their last tally in the sixth.

Clearfield was blanked by Dronney until the fourth, when three successive singles drove a run across the plate. Several chances to score were thrown away before and after this round by the headless base running complained of. In the eighth McCloskey opened with a double and Captain Townsend brought the crowd to its feet with a roar when he straightened one of Dronney's benders, the ball hitting the track in right and rolling under the fence for a homer chasing "Little Mac" in ahead of him. Shawlis followed with a single, his third hit of the game, but Dronney grounded up his loins, settling down prevented further scoring.

The score:
Eriton 1 0 0 3 0 1 0 0 0—5
Clearfield 0 0 0 1 0 0 0 2 0—3

Two base hits—McCloskey; Kiel. Home run—Townsend. Sacrifice hits—Lansberry, Liptac. Stolen bases—Lansberry, Williams, Liptac. Struck out—by Bow

Why is a bad boy bad? What is responsible for the juvenile law-breaker, who so often grows into the adult criminal? Twenty-five years ago no one stopped to think; they merely punished him. Now society, realizing that all effects have causes, is investigating those causes. Towns and cities are rapidly learning that an ounce of prevention in the form of thoughtful supervision of children's leisure time is worth a pound of cure in the form of courts and jails.

The lack of suitable places to play is responsible for a vast amount of juvenile crime. It is in their hours of leisure that boys and girls commit their first offenses, which nearly always prove to be the result of thwarted play instinct. The game-forming instinct is merely the team-play instinct gone wrong.

CROP REPORT

(Continued from Page 1.)

A production of 32,079,000 bushels as compared with 41,242,000 bushels last year and 39,393,000 bushels the average production for the past ten years. The percentage of last year's crop still remaining on farms is estimated at 6.3 per cent or 2,589,000 bushels. Last year's estimate was 2,470,000 bushels and the ten year average stocks is 2,556,000 bushels.

Rye.
The preliminary estimate of the average yield per acre of this season's crop is 16 bushels and the production 3,682,000 bushels as compared with 3,740,000 bushels last year and 4,012,000 bushels the average production for the past ten years. The quality this year is estimated at 92 per cent of a normal as compared with 93 per cent last year and 93 per cent the average quality for the past ten years.

Barley.
The area seeded this season is estimated at 3 per cent less than a year ago or 241,000 acres. The condition of the crop on August 1 was 79 per cent of a normal indicating a yield of 17.4 bushels per acre and a production of 4,294,000 bushels as compared with 5,208,000 bushels last year and 5,411,000 bushels the average production for the past ten years.

White Potatoes.
The condition of the crop on August 1 was 68 per cent of a normal, indicating a yield of about 78.9 bushels per acre and a production of 20,430,000 bushels as compared with 28,512,000 bushels last year and 24,398,000 bushels the average production for the past ten years. The total potato crop in the United States is estimated at 37,708,000 bushels as compared with 45,100,000 bushels last year and 388,000 bushels the average production for five years 1917-1921.

Hay.
The condition of all tame or cultivated hay was 62 per cent of a normal indicating a yield of about .94 tons per acre and a production of 2,879,

000 tons as compared with 4,880,000 tons last year and 4,278,000 tons the average production for the past ten years. Condition of timothy was 65 per cent of a normal as compared with 94 per cent last year and 89 per cent the average condition for the past ten years on August 1. Clover was 60 per cent of a normal as compared with 97 per cent last year and 86 per cent the ten year average condition. Alfalfa condition was 79 per cent of a normal as compared with 95 per cent last year and 92 per cent the average condition for the past ten years on August 1. The condition of wild hay on August 1 was 68 per cent indicating a yield of 90 tons per acre and 26,000 tons the average production for the past five years.

Other Crops.
The condition of other crops in Pennsylvania, the condition for last year and the condition for the past ten years on August 1 are as follows: Millet, 60, 80, 82; pastures 55, 89, 87; grain sorghum 65, 80, 82; cowpeas 92, 90, 91; soy beans 80, 87, 89; tomatoes 75, 90, 89; cabbage 76, 90, 91; onions 76, 90, 91; melons 67, 79, 80; blackberries: The total reduction this season was estimated at 70 per cent of a normal as compared with 90 per cent last year and 84 per cent the average production for the past ten years.

Fruit.
Apples: the condition of the total or agriculture crop on August 1 was 63 per cent of a normal indicating a production of 10,706,000 bushels as compared with 11,400,000 bushels last year and 10,731,000 bushels the average production for the past three years. The commercial crop this season is estimated at 1,249,000 barrels as compared with 1,216,000 barrels last year and 995,000 barrels the average commercial production for the past three years. According to report received from several hundred commercial growers throughout the state, the percentage of this year's crop which will be of different varieties are as follows: 15 per cent Summer 35 per cent fall and early winter and 50 per cent late winter. The com-

TWO GIRLS LOST IN BLACK FOREST OF POTTER COUNTY

Coudersport, Aug. 12.—Miss Bertha Wold, daughter of Mr. and Mrs. Peter Wold of Austin, and Miss Dorothy Willard of Schoenectady, underwent an exciting experience last Friday when they were lost in the Black Forest in the neighborhood of Corbett, Potter county. Miss Wold is an instructor of nurses in the Post Graduate hospital in New York City, and Miss Willard is the daughter of Cora Buck Willard, formerly of Coudersport.

Together they conceived the novel idea of a vacation trip on horseback to Austin to visit the parents of the former and Mr. and Mrs. George Storer, relatives of the latter. Leaving Schoenectady on Sunday, July 22, they spent two weeks in covering the 327 miles, traveling by way of Cobleskill, Oneonta, New Millport, Montrose, Susquehanna, Mansfield, Troy, Wellsboro, Galeton and Halls and reaching here late Saturday afternoon.

All went well until Friday evening when in attempting to take a short cut through the woods they became lost in the Black Forest. They dismounted and walked until dark then built a little fire, tethered their horses and took turns watching for bears, wild cats and snakes, which however, failed to appear. At daylight they started again and found their way to the pike where some men gave them water—the first they had had for 24 hours. The remainder of the trip was easily accomplished and they are now resting and entertaining their friends with tales of their experience.

Central News Dispatch Gives Names Of The New German Cabinet

London, Aug. 13.—The new German cabinet has been completed as follows, according to a Central News dispatch from Berlin today:

Chancellor and Foreign Affairs—Strosemann.
Finance—Hallerding.
Economy—Baumer.
Railroads—Heuerick.
Justice—Radbruch.
Interior—Fuchs.

The portfolios of Posts and Labor are unchanged.

\$100,000 Crude Oil Fire At Philadelphia Cause Of Much Concern

Philadelphia, Pa., Aug. 13.—Firemen early today, after a twelve hour battle, extinguished a \$100,000 fire in the Atlantic Refining Company yards here that burned more than 1,000,000 gallons of crude oil.

The fire started when a huge oil tank was struck by lightning during a storm Sunday afternoon. With a roar that could be heard for miles a streak of flames shot into the air. Burning oil scattered in all directions.

Twenty firemen were overcome by the intense heat from the burning oil and by smoke.

Pirates Rob Canadian Schooner Of \$6400 And 200 Cases Of Whiskey

Halifax, Aug. 13.—Captain John Simms of the schooner Dominion Packet reported that his craft had been boarded by rum pirates off Long Island August 5 and looted of \$6,400 and 200 cases of whiskey.

Six pirates in a powerful motor launch approached the schooner evidently to buy liquor, but once on board overpowered the Dominion Packet crew of eight men, Simms said.

Commercial crop of the United States is estimated at 22,877,000 barrels as compared with 31,000,000 barrels last year and 2,700,000 barrels for the preceding five years, 1917-1921.

Peaches: the condition of the crop on August 1 was estimated at 69 per cent of a normal, indicating a production of 1,709,000 bushels as compared with 1,560,000 bushels last year and 1,303,000 bushels the average production for the past three years. The total production for the United States is estimated at 42,272,000 bushels as compared with 56,700,000 bushels last year and 42,700,000 the average production for the last five years, 1917-1921.

Pears: the condition of the crop on August 1 was 57 per cent of a normal indicating a production of 544,000 bushels the average production for the past three years.

Grapes: The condition of the crop August 1 was 84 per cent of a normal as compared with 95 per cent last year and 76 per cent the average condition for the past ten years on August 1. The condition this season indicates a total production of about 17,987 tons.

FRANKLIN GROCER IS KILLED; COMPANION SEVERELY WOUNDED

Franklin, Pa., Aug. 13.—Roy Leach, 41, a grocer of Franklin, and Albert D. Reynolds, 46, were instantly killed and J. M. Duncan of Cooperstown was injured in two automobile accidents a few miles north of here late Sunday.

Reynolds and Leach were killed shortly before midnight when their machine went into a ditch and overturned.

Duncan was injured just as his car failed to make a turn near Wyattville and overturned, breaking his neck. Duncan is not expected to live.

\$2500 FIRE AT HARRY R. EVANS' HOME

The residence of Harry Evans, located at the corner of West Locust and William streets, was damaged to the extent of \$2500 by a fire which was discovered about 10:15 o'clock Sunday morning. Mr. and Mrs. Evans were at Sunday School at the time and Mrs. Mary Gearhart, mother of Mrs. Evans was alone in the home at the time the fire was discovered. Dinner was being prepared on an oil stove and it is thought a pot on the stove boiled over and the boiling water running into the boiler caused the oil to flame up igniting the curtain on a small window over the stove, during the absence from the kitchen of Mrs. Gearhart.

The fire communicated with the side wall of the kitchen and was burning quite fiercely when discovered. Manager Hamilton of the Independent Oil Works attempted to send in the fire alarm but met with considerable delay in being unable to get central. When the alarm was given the exchange girl she put No. 36 wheel on instead of No. 32 and the mixup in signals resulted in further delay for the firemen. When they did get the blaze located it did not take the firemen long to conquer the fire, but by that time the kitchen and dining room had been pretty badly gutted.

The damage to house and contents is placed at \$2500 by Mr. Evans, which is partially covered by insurance.

WOODLAND BOOSTERS CLUB MEETS THIS EVENING

The regular Booster Club dinner will be served at the Woodland Hotel promptly at seven o'clock this evening. Every member should be present.

SECOND ATTEMPT TO CAPTURE BERGDOLL

(Continued From Page One.)

was an American Army lieutenant and the other a Russian Prince.

Eberbach, Germany, Aug. 13.—Roger Sperber, who was twice wounded and had his thumb bitten off by Grover Cleveland Bergdoll, during the attempted kidnapping, in which the noted draft dodger killed one of his assailants, is understood to have admitted to the German authorities that the American Legion in Paris offered \$10,000 for the successful capture of Bergdoll.

Lieutenant Hoover Griffith, U. S. A. instigated the plot that failed so dramatically, according to Sperber.

The notorious slacker learned of the plot from observing an automobile following him about for several miles yet went alone to his hotel room Friday night and fought off two of his attackers, killing Karl Schmidt and wounding Sperber.

Mrs. Bergdoll, the draft dodger's wife, exclaimed when she learned of the attempt: "If I would have been there I would have killed all the scoundrels."

Bergdoll with several stitches in his head but otherwise none the worse for the experience went to Heidelberg with his mother.

The elder Mrs. Bergdoll said she will remain in Germany "until full pardon is granted Grover in the home where he now is persecuted."

Progress Editorial For Women

ALONE
By FLORENCE DAVIES

Back home and alone, Florence Harding is yet not alone. A thousand tender voices speak to her, a thousand hands are held out to her to help her along the lonely darkened way.

They are the voices and the hands of happy memories, the abiding consciousness of duties well done, of love that never faltered.

That consciousness in itself must be a benediction that will banish forever the bitterest cruelty of grief. "Whatever honor has come to me this day I owe to Florence"—around her lonely heart she may wrap those words and rest in them. What a memory to rest upon. How vastly sweeter is loneliness than a living presence tinged with discord and regret.

But who wouldn't walk beside one's husband, hold up his hands in every way, play his game, support his policies, work and plan and pray for his ideals and ambitions, if that husband were president of the United States? Who indeed? It's easy enough to be "the Duchess," helping, smiling, working, in the White House, where honors are showered down like rose petals in June.

Almost any woman would play her husband's game if it led up the great

steps to an executive mansion. But that is not Mrs. Harding's story. She was "The Duchess," back in the old days when her salon was held in a newspaper office, and when playing her husband's game didn't mean shaking hands with the ambassadors from the courts of Europe, but bossing a crew of newsboys who carried her husband's paper on their afternoon routes.

Then as now she was every inch the Duchess, his duchess, never embittered by early struggles, never spoiled by the aftermath of money and fame.

Only a few men in every generation may become the nation's president, but countless thousands may wring mastery from defeat and happiness from drab existence, and countless thousands of women can help to make it possible if they catch a glimpse of Florence Harding's life.

For that example, American women who have revered her as the president's wife must be eternally grateful. It must always hearten and stimulate them. That is what she has done for the rest of us.

For herself, she has the unspeakable blessing of a perfect after glow. Warren Harding's flame has flickered out. But the afterglow burns on in Mrs. Harding's heart in eternal beauty.

CITY OF MILWAUKEE WARS ON GASOLINE PRICES; PRICES CUT

Milwaukee, Wis., Aug. 12.—The city of Milwaukee will start selling gasoline for 13.5 a gallon for low tests and 14.8 for high tests in an effort to drive down prices here.

\$5,000 worth of the fuel will be distributed to the public through the city filling station, Alderman Arthur Shuklin and James S. Duncan, Secretary Major Doan announced.

The price represents cost and is about 10c a gallon less than present filling station prices.

Gordon Klinger, a former well known Clearfielder, arrived in town Saturday to join his wife and daughter and will visit local relatives for a couple of weeks.

BANISH THIS ENEMY OF DAINTY HANDS!

All the care in the world cannot erase the ravages that steaming water and soap work on a woman's soft hands. A few weeks of wash day toil will leave them harsh and rough as surely as the seasons change.

And it is all so useless—

For, at a cost no greater than that of your own time and trouble, you can secure our Rough Dry service. You can have all the washing done, all the flat work ironed, all woollens, bath towels and stockings fluffed soft and dry—just the lighter pieces of wearing apparel left for you to dampen and iron at your convenience.

This next washday—phone our representative to call.

SURVIVOR WOMAN DIES

Mrs. Maria Jane McGonigal, 69 years, passed away at the home of her son E. R. McGonigal at Scrivener, on Sunday. Death was due to cancer. The funeral will be held from her son's home at Scrivener Wednesday afternoon at 1 o'clock. Interment will be made at Oak Hill cemetery, near Karthaus.

Political Announcements

The Progress is authorized to announce the following names in its editorials for public office subject to the decision of the voters at the election to be held for September 1923.

FOR PRETHNOTARY

George W. Halston of Clearfield Borough, subject to the rules of the Republican Party.

FOR PRESIDENT JUDGE

A. B. Chubb of Clearfield Borough, subject to the rules of the Republican Party.

FOR PRESIDENT JUDGE

Hazard A. Blum of Clearfield Borough, subject to the rules of the Republican Party.

FOR COUNTY COMMISSIONER

Blake W. McCracken of Mahanoy Borough, subject to the rules of the Democratic Party.

FOR COUNTY COMMISSIONER

Thomas D. Small of Carversville Borough, subject to the rules of the Republican Party.

FOR COUNTY COMMISSIONER

William T. Thorp of Penn Township, subject to the rules of the Republican Party.

FOR COUNTY COMMISSIONER

M. L. Farrell of Clearfield Borough, subject to the rules of the Democratic Party.

FOR COUNTY COMMISSIONER

W. B. Stephenson of D. I. Township, subject to the rules of the Republican Party.

FOR COUNTY COMMISSIONER

Jesse E. Dale, of Dufur City, subject to the action of the Republican primary election.

FOR COUNTY COMMISSIONER

George W. Fox of Juncosville, Clearfield township, subject to the action of the Republican primary election.

FOR COUNTY COMMISSIONER

John Boyce of Clearfield Borough, subject to the rules of the Republican Party.

FOR COUNTY CONTROLLER

Grant H. Thompson of Clearfield Borough, subject to the rules of the Republican Party.

FOR COUNTY CONTROLLER

A. G. Woodward of Carversville Borough, subject to the rules of the Republican Party.

FOR COUNTY COMMISSIONER

Thomas A. Bauman, of Woodbury Township, P. O. address Glanta, Pa., subject to the rules of the Democratic Party.

FOR COUNTY COMMISSIONER

John G. Mannes of Bradford township, subject to the rules of the Republican Party.

FOR REGISTER & RECORDER

O. Bruce Porter of Clearfield Borough, subject to the rules of the Republican Party.

FOR REGISTER AND RECORDER

Milford Branton of Clearfield Borough, subject to the rules of the Republican Party.

HUSKY KIDDIES ALL OVER CLEARFIELD DRINK OUR MILK

The huskiest kiddies that you will find anywhere in the city will be found to be, upon inquiry, kiddies that have been brought up on our milk.

These kiddies, too, you will find, have been particularly free from the usual rash of summer diseases that kiddies are heir to simply because they have been fed our pasteurized milk.

The pasteurization process removes all the possible contamination that might be in the milk and is insurance that, if you will give your kiddie plenty of it, that this same kiddie is getting the best milk possible.

Clearfield Dairy Co.

MANY SEEK SHORT CUTS TO WEALTH

There is too much envy of wealth and too little willingness to work for it. Hard work and regular savings, with the interest earned, have enabled many a poor man to acquire riches, and many of the world's richest men started only with determination to work and save regularly. Those who save regularly usually win. A savings account in which regular weekly or monthly deposits are made, is the proper beginning. Start one today. It will help you to acquire things you desire.

Clearfield National Bank
"The Bank of Personal Service"

Curwensville's Own Column

Harry Lines is the champion snake player in this section so far as there is any record. Saturday he killed a huge fellow out near the Kartstetter mill which measured 44 inches in length and as thick around the middle as an ordinary man's arm. The reptile put up a good battle for its life but a club wielded by a strong right arm of one who is not afraid of rattlers, proved unavailing and it went the way of all snakes when confronting with man. A lad brought the snake into town, and after having been viewed by many who had never seen a rattler, took it home and jerked its hide off with which to make himself a belt.

Mrs. Samuel Thompson and child, of Harrisburg, spent the latter part of last week with the family of Orville Thompson.

William McKinney, who has been resident of Curwensville for a number of years, is selling off his household goods and contemplating removing to Centre county to make his home with one of his daughters. Mr. McKinney is one of the true veterans of World War, having served a full five year term.

Miss Lottie Bisher has returned from a visit with his folks at Youngstown, O.

Ralph Hoppy, who was working on a building near New Millport Saturday, fell from a scaffolding, receiving some painful and severe injuries. The injured man was brought to the office of Dr. Echari but unfortunately he was out on a trip. Hoppy was then taken to the hospital, where it was found that a jaw bone had been displaced, a huge splinter of wood in the neck, and several minor bruises. He was very fortunate in that he was not killed by his fall.

William McDonald took a motor trip to Gettysburg and other points of historic interest on Saturday.

Miss Alice Ammerman of Philipsburg spent the week-end with Curwensville relatives and friends.

Mrs. John Murray and three children, Misses Alice Murray, Kate Smith and Mabel Leonard left on Sunday for a three days sojourn at Buffalo, Niagara Falls and intermediate points.

Mrs. A. G. Woodward and Mrs. Murphy, sons, etc., have returned from a week's trip to Washington, D. C., Gettysburg and other eastern cities and towns.

Mr. and Mrs. David Ried and Mr. and Mrs. John Rapp attended the big British picnic and reunion at Sunae Park, Cambria county, last Saturday.

The Bull gate leather tannery at this place has cut down the usual daily output from 75 per cent to 50 per cent. This reduction will only be for a short space of time.

Residents of Ridge avenue are complaining of the condition of the road leading to their vicinity. The State Highway by cutting off the ground at the junction of the road put it in such a shape that it is almost impossible for any vehicle to get onto Ridge avenue with a load of coal or most anything else. We do not know whether it is the duty of Borough Council or the State Highway men to fix this.

**RUSSELL HOWARD SUFFERS
HEART TROUBLE SATURDAY**

DuBois, Aug. 12.—Russell G. Howard, a well known architect of this city, suffered from a severe heart attack on Saturday afternoon and as a result his condition at present is rather a serious one.

Mr. Howard, in company with several other men, was at the country club and was in the act of getting ready to play tennis when he was stricken. He was assisted into the club house and rendered what temporary aid could hastily be summoned. After recovering somewhat he was placed in a car and brought over town to a physician's office. A thorough examination was made and it was found advisable to remove him to his home where he has been under constant treatment.

Reports from the Howard home last evening were to the effect that he was getting along as well as can be expected, and that his condition over Sunday was encouraging in the hopes for an early and complete recovery.

KNARR REUNION

A reunion of much importance in view of the fact that it concerned the family that stands third in the rank of the families that settled in Clearfield county, occurred Aug. 9 at the Pines, known as Zimmerman Park near Troutville. About three hundred of the descendants of George Adam Knarr and their friends gathered for the fifteenth annual reunion of the Knarr Reunion Association of Clearfield County. The union of the descendants for the fifteenth time proved interesting as well as entertaining. The usual basket picnic dinner which in this case was quite large and marked by the fine layout of good things to eat was an important adjunct of the occasion, while the afternoon was spent in various ways to suit the tastes of the individual. A literary program in which a number of able speakers took part was the chief feature of interest. The opening address of welcome by R. M. Knarr of Clearfield followed by Reuben Weisgarber of DuBois, was instructive and entertaining. Hon. J. E. Phillips gave a short address that was much enjoyed and A. R. Chase gave a very interesting talk on the Old Settler, Then and Now.

Why Busy People Have Leisure.
They say that the busiest people have the most time to give in service to others, can turn clear attention to a new subject at an instant's notice. This is simple because the busiest people, the ones who are accomplishing the most, have learned the art of prompt action, of quick dismissal of what has to be done. They can give you at any moment undivided attention because their minds are clear and ready.

Corry Falls Before Mean Twists of Local Horse Shoo's Wrists

The Clearfield horse shoe pitchers have returned from Corry with the palm as was expected. Corry was not ready but got that way in a hurry—hand bills and tickets were rushed on to the streets and the crowd was there. The \$25.00 that was so painfully scraped together here was gathered in short order, and the cordial spirit was the same that was shown when they came here. The score seems to indicate that honors are even—Clearfield has the pitchers and Corry the public interest. As has been a ready mentioned in this paper, the local club expects to be represented at the national tournament at Cleveland in September. It is not fair to expect men to bear all the expense when the town is bound to get some good advertising out of it. The answer to the local tournament school always to be found in the paper, so those who are at all interested are asked to come around and see what their men are doing and chip in a little toward the needed expenses. There is an outlay needed for which there are no funds—lighting, benches and so on.

The scores:

Game	Single	P.	R.	D.
1st Game—				
Johnson	50	13	1	
Anderson	14	4	0	
2nd Game—				
Plint	50	11	4

Sullivan	42	12	1	
Doubles.				
1st Game—				
Johnson and Hudson	50	14	1	
Lovelace and Mitchell	38	13	0	
2nd Game—				
Plint and Smith	50	11	1	
Sullivan and McLone	50	14	1	

Protecting Turkeys From Coyotes.
In certain parts of the West flocks of domestic turkeys on frontier farms are protected from attacks by coyotes by tying small bells to the necks of the gobblers. The tinkling of these bells is sufficient in most cases, to keep the animals away while not infrequently unprotected flocks which have wandered in from home are annihilated by the beasts. Popular Mechanics Magazine.

HAVE A HAPPY JOSS IN YOUR HOME

DIAMOND JUBILEE OF P. O. S. OF A. BEGINS AUGUST 25

The Diamond Jubilee Anniversary of the Patriotic Order Sons of America will be celebrated in Philadelphia from Saturday, August 25th to Sunday, Sept. 2nd. Five conventions of the Order will be held during this time. The Commandery, General the official uniform rank will hold their convention Monday, Aug. 27th. The Pennsylvania State Camp P. O. S. of A. will meet Tuesday and Wednesday. The Pennsylvania State Camp Patriotic Order of Americans the ladies branch of the Order will meet Thursday and Friday. The Rough Riders, the playground of the Order will meet Thursday morning and the National Camp will meet Thursday afternoon and Friday.

The big event of the whole Jubilee will be the Street Pageant, Saturday afternoon, September first. Twenty-five thousand Marchers, fifty floats and one hundred bands are registered for the pageant from all sections of the country, as far west as the State of Washington, and South to Florida and New Orleans. The Pageant will form between Columbia Avenue and Diamond streets, and the official route will be from Columbia Avenue to Reed on Broad street.

Broad street will be decorated the finest of this splendid parade street's history. The City has awarded the contract for decorating the same to the Model Sign Company of 9th & Venango Streets and all of the Electric Light posts in the center of Broad street from Diamond to Dickinson will contain beautiful decorations. These decorations are being made as the property of the City, by suggestion of C. B. Helms, State Secretary of the P. O. S. of A. and will be for conventions holding celebrations in the future.

Camps and Commanderies from all sections of the United States have filed their registration cards for parades. Special trains will reach the city from all parts of Maryland, New Jersey, Delaware and Pennsylvania on Friday and Saturday, Aug. 31st and September first.

The events will commence with the Commandery parade on Saturday, August 25th from City Hall to Moose Hall at Broad above Thompson Street, where the advancement ceremonies will be held. The Staff of Corbin Commandery of New Britain, Conn., will do the work.

Sunday afternoon, the beautiful Betsy Ross Memorial will be dedicated in Mount Moriah Cemetery. The memorial is erected waiting for the day of dedication. A parade will form in connection with this dedication at 10th and Woodland Avenue at two o'clock, march down Woodland ave.

S.S.S. stops Rheumatism

"MY Rheumatism is all gone. I feel a wonderful glory again in the free motion I used to have when my days were younger. I can thank S.S.S. for it all!" Do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. S.S.S. is waiting to help you. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S.S.S. is the great blood-cleanser, blood-builder, system strengthener, and nerve invigorator. S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Gossip For Tonight's Tea Table

Mr. and Mrs. C. T. Kurtz, Mr. and Mrs. P. G. Smith, and Mr. and Mrs. Clarence Stewart have returned from a week's visit with Mr. and Mrs. Charles Wood, of Montour Falls. Y. Mr. and Mrs. Stewart of Pittsburgh are the house guests of Mr. and Mrs. P. G. Smith, of West 1st street.

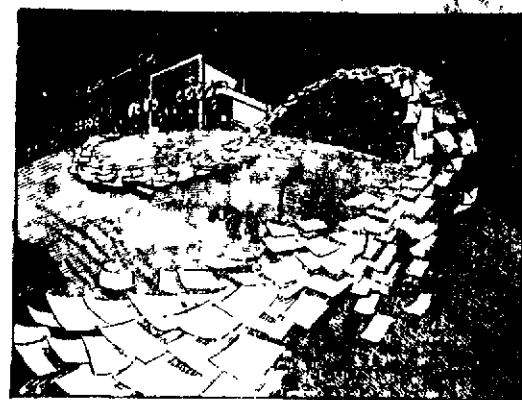

to 60th, up 60th to Kingessing, out Kingessing to Mount Moriah cemetery where the exercises will be held. State President Bover will preside at the cemetery.

Sunday evening in the Bellevue Stratford Hotel, the anniversary Service will be held with a special program. A large orchestra will furnish music and an address will be made by National President Gabriel H. Moyer and the Anniversary Sermon will be preached by Rev. Walter H. Egge, the National Chaplain of Lebanon.

Monday evening, the Anniversary Reception Ceremony will be held in the Bellevue Stratford Hotel, when the Mayor and a representative of the Chamber of Commerce will extend the welcome of the city. Responses will be made by the heads of the various departments of the P. O. S. of A.

The Anniversary Banquet will be held in the First Regiment Armory, Wednesday evening, August 29th, when three thousand persons will sit down to the festive board. Here a most extensive and ambitious program will be rendered. Sight seeing trips, boat rides, auto trips to Valley Forge, picnics at Willow Grove and other entertainment have been arranged for the thousands of visitors.

Tip From the West.
"The wise husband," says the Pawnee Journal, "reserves the place in his twelve greatest women list for use in the immediate family."—Boston Evening Transcript.

What's Changing Us?

What will History call this present age? It was the printing-press (wasn't it?), that changed our conditions of Life.

But the printing-press did its great work at a price. It definitely affected the eyesight of the race. This present era may well be called the Age of Eyestrain.

At first man's average range of vision was 40 feet and over. Then, to read the first big black letters it was occasionally pulled in to arm's length. Today small type taxes our eyes endlessly at an average range of only 14 inches.

But science has kept pace with this growth of printing, finding measures for the relief of the eyes. For what is more important to happiness and success than efficient eyesight? Fancied ability to see is not a test of vision. Eyestrain produces headache, nervousness, overtaxed eye-muscles, bloodshot eyes and other discomforts. With glasses you are protected—your eyes properly adjusted, never-strain relieved. A complete eye-examination is the one way to be safe.

William Sloc and daughter of Philadelphia shopped in town.

Mrs. Milo Lawhead was a Clearfield shopper.

Miss Ann Cole of New Philadelphia, Ohio, is the guest of Miss Jean Mitchell.

Mrs. Guy Ogden and Mrs. Ord Mease have returned to their home in Akron, O., having spent the last three weeks with Mrs. Lewis Mease of Fourth street.

Mrs. Lewis Mease and Mrs. Harriette Watkins, of Altoona, state president of U. O. of A., will attend a district meeting at DuBois this evening.

Dr. Lillian McBriar has returned to her home in Pittsburgh, after spending the past week as the guest of Mrs. Bowman A. Brown.

Mrs. W. W. Moore, of South Fourth street, underwent a serious surgical operation at the Clearfield Hospital this morning.

Mrs. Curtis Bumgardner, of Greenville, Ohio; Mr. and Mrs. Leonard Melker and daughter of Wilkinsburg, Pa., and Mrs. Nettie Erhard of Philadelphia, were guests of Mrs. S. C. Read at her home in Goshen the past week.

Mr. and Mrs. John Lutz, of Baltimore, Md., are guests of Captain and Mrs. T. E. Clark at their home on Front street at present. Mrs. Lutz is a sister of Mr. Clark.

FOR BURNING ECZEMA

Apply Zemo, the Antiseptic Liquid—Easy to Use

From any druggist for 25c, or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes Eczema, quickly stops itching, and heals skin troubles, also Sores, Burns, Wounds and Chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

HALT!

Even though the liquid in your thermometer is flirting with the top of the tube, it won't be long before it's seeking the bottom. You'll need coal then. We'll fill your bin now.

Krebs Bros. Drayage Co.

NUMBER 100

THE POSSIBILITY OF A HARD COAL STRIKE CONCERNS COOLIDGE

Washington, Aug. 13.—President Coolidge was engaged today in formulating his first new policy, a policy to protect the public against coal shortage this winter.

The keynote of that policy, according to his advisors is: "There shall be no strike."

Mr. Coolidge's attitude to the grave situation in the hard coal fields as a result of the deadlock between operators and miners was evidenced by his sending George Otis Smith of the U. S. Coal Commission on a flying trip to Gloucester, Mass., to confer with the chairman, John Hayes Hammond.

Back from a hurried conference Dr. Smith reported to the President at the White House today. Hammond will return to Washington tomorrow when the coal situation will be laid before the cabinet.

Mr. Coolidge, it was understood, will insist on another joint meeting of the anthracite operators and miners with an admonition to reach a settlement.

BOOTLEGGERS TRY HARD TO GET OUT OF COUNTY JAIL

The Clearfield County jail does not appear to be a very desirable place in which to tarry, judging by the efforts made to get a parole or commutation of sentence by the different bootleggers, who fall by the wayside hereabouts from time to time.

The jail doors were opened on Saturday for one Joseph Curcio, of DuBois. Joe was sentenced June 14th to pay \$300 fine and costs and serve six months in jail. Judge Bell granted Curcio's release Saturday, according to the order filed, at the request of Rev. W. O. Callahan, who is made a special probation officer to look after Curcio, who is also required to pay the fine and costs imposed and a \$400 bond to guarantee his good behavior for two years.

Joseph Vitterella, also of DuBois, was not so successful in his quest for liberty. Vitterella was sentenced July 9th to pay \$200 fine and costs and serve four months in jail for violating the liquor law. At the time of his sentence James A. Gleason, his attorney, made the statement that Joe was suffering from chronic lumbago and chronic inflammation of the sciatic nerve and that imprisonment would endanger his health. An order accompanied the sentence directing that Jail Physician Cowdick examine Vitterella and report on his condition. Dr. Cowdick reported Joe in fine shape to serve his time, and he was forced to take up the irksome burden.

Some time later Dr. J. I. Pollum and J. I. Brockbank of DuBois, presented a statement to the court setting forth that Vitterella's confinement in jail would be dangerous to his health, stating that his condition was such that he was unable to rise from a chair when sitting down without the assistance of his hands and that he was losing flesh, etc. Dr. Ward O. Wilson was then directed by the court to examine Vitterella and see what he could find. Dr. Wilson agreed with his Clearfield colleague and, while he didn't say so in that many words, in the opinion of the DuBois doctors were talking through their hats, medically speaking, that is if a doctor can speak medically through his headgear.

With the doctors fifty-fifty on the man's condition there was nothing left to do but give each side a chance to maintain its conviction in the case, so Judge Bell has fixed a hearing in the matter for Monday morning, August 27th at 9 o'clock, when and where a decision will be made and it will be determined once for all whether or not Joe Vitterella is a sick man in the eyes of the law.

Andrew Harwick was taken quite seriously ill at his business place on Market street Saturday evening about 9 o'clock. He was taken to his home on South Second street, where he is recuperating very nicely today.

FOUR KILLED IN SEVERE WIND AND RAIN STORM WHICH SWEEPED OHIO AND W. VA. FROM THE NORTHWEST LAST EVENING

Three Are Drowned at Village of Beckley, W. Va., With Half Million Dollar Property Loss Accounted For.

Columbus, O., Aug. 13.—Four persons are known to have perished in a severe wind and rain storm which swept Ohio and West Virginia from the northwest during the night.

At least a dozen persons were injured and thousands of dollars were lost in damaged buildings and crops.

The temperature here dropped 23 degrees in five minutes when the storm broke.

Rain swelled streams in the vicinity of Beckley, West Virginia, where three persons were drowned and property damage is estimated at \$500,000. The victims were: Manson Harrah, George Hansson and an unidentified negro.

Walter Kwarsanski was killed by broken electrical wires at Toledo, O.

A small explosion near Charleston, W. Va., cut off all communication lines between Charleston and Stone Coal and Laurel Creek districts to the south.

Unconfirmed reports of large death lists reached Charleston during the night. Attempts to communicate with the flooded areas early today were unavailing.

Attack On Former Home Of Mary Minter Revives Desmond Taylor Case

Los Angeles, Cal., Aug. 13.—Details of a mysterious attack on the former home of Mary Miles Minter, now occupied by Sigrid Holmquist, also a film star, were revealed for the first time today.

Authorities had kept the facts suppressed in the hope of capturing the attackers.

Friends of Miss Minter coupling the attack with a series of strange incidents, are afraid Miss Minter is in the shadow of a carefully planned plot to kill her, one that perhaps had its origin in the famous William Desmond Taylor case.

Miss Minter let her Hollywood house to Miss Holmquist, June 10th. A few days later Miss Holmquist said two men appeared at the door and brushed past the maid into the house. When Miss Holmquist protested, they said: "We are detectives." After looking around they departed.

Miss Holmquist bears a striking resemblance to Miss Minter some days later, during a dinner party at the house, Miss Holmquist stepped thru the French windows to the porch. A shot was fired, evidently from the shrubbery on the dark lawn. The bullet grazed Miss Holmquist's shoulder, inflicting a slight flesh wound. Men members of the party rushed out to search the ground but found no one.

A few nights later Miss Holmquist was awakened by the beams of a flash light playing over her face. She screamed. The prowler then departed. Miss Holmquist verified the entire story today.

Meanwhile friends of Mary Miles Minter are attempting to find the connection between the attacks on her former home and on her friend Miss Holmquist, whom she resembles, and the strange occurrences which have caused the former film star to believe she was constantly watched.

Even recently since she has removed to Pasadena, Miss Minter has felt that she is being watched. Unexplained noises at night have so alarmed her that she keeps a revolver under her pillow.

GIRL, 10, JUMPS INTO RIVER AFTER BEING SCOLDED BY MOTHER

Pittsburgh, Pa., Aug. 13.—Following a quarrel in her home early today with her mother, Jennie Asrich, 18, of Ninth street, Braddock, walked to the banks of the Monongahela river and leaped into the stream. She was rescued and carried to her home, where it was said she will recover.

Frank Hancock, Grace Hancock, Mr. and Mrs. John Hancock and daughter Elizabeth, motored to Penn's Cave Sunday.

Detoured Trains Crash; Seven Railway Employees Die; Two Others Hurt

Pueblo, Colo., Aug. 13.—Seven railway employees were killed and two train men and one passenger injured today at Fowler, Colorado in a head-on collision between passenger trains on the Colorado & Southern and Santa Fe Railroad.

Colorado Southern passenger train No. 609 detoured from Walsenburg to Lajunta because of floods in Santa Fe and No. 6 running on schedule from Pueblo west crashed at the west switch at Fowler.

COOLIDGE IN 1924 IS PREDICTION OF SENATOR BORAH

Spokane, Wash., Aug. 12.—Senator Borah, of Idaho, here last night, said he believed President Coolidge was the logical man for the Republican presidential nomination in the next campaign, and called upon the public to give him a chance to make good. The Senator said:

"Fate and circumstances have made Calvin Coolidge President. There are some very difficult problems demanding attention.

"The agricultural situation is extremely serious. The coal problem, in my opinion, will soon be acute. Transportation also requires consideration, and the foreign situation will bring into view the mad policies now plunging Europe into deeper misery.

"If he makes good, or shows in the next few months he is making good, he will certainly be nominated. What the people want is results. If Mr. Coolidge gives results, that is all there is to it. I think he is an able man. I want to see him have a chance to make good.

"No political party can survive the next campaign which does not have clear, definite, constructive and inspiring program. If there ever was a time when the office should be, and in my opinion, will, seek the man, it is now. I have never seen so much political explosive lying around to be touched off as right now. The voters do not care two cents for parties or individuals. They want results. Give the man at the helm a chance."

GUNO QUILTS POST AS CHANCELLOR OF GERMAN REPUBLIC

Berlin, Aug. 12.—The resignation of Chancellor Wilhelm Guno and his entire cabinet was accepted today by President Ebert. Dr. Gustav Stresemann, leader of the German Peoples' party, has been commissioned by President Ebert to form a new government.

After accepting the task, Herr Stresemann had a conference with the representatives of the various parties. The greatest difficulty seems to be in connection with the foreign ministry and it is believed possible that he will take the post himself temporarily.

London, Aug. 12.—With the downfall of the Guno government, the publication of correspondence between the allies, and two fighting speeches by Premier Poincare of France, the reparation situation became decidedly more acute over the week-end.

German Socialists by a decision reached on "Constitution Day" to join with Communists in voting lack of confidence in the Guno ministry today forced the chancellor's resignation.

Great Britain caused a sensation which many believe may lead to a definite break with France and Belgium over reparations when a note in which the legality of the Ruhr occupation is flatly challenged was made public.

On Sunday at Marzelle and Stenay Premier Poincare made two inflammatory speeches in which he recalled the horrors of war times and attempted to inflame his hearers to continued hatred of Germany, declaring occupation of the Ruhr will not end until Germany has paid.

In anticipation of a break between England and France, the French fell to the lowest point of its history. From Hanover, Germany, new and fatal rioting was reported with 11 dead and 50 injured.

Berlin, Aug. 13.—Nine persons were killed and thirty injured when Communists attempted to storm the town hall at Seitz, Saxony today.

Paris, Aug. 13.—France proposals in the British reparation note as "unacceptable" and Premier Poincare probably will reply, flatly refusing.

(Continued On Page Two)

State Aid Hospitals And Homes Are Told How To Apply for Appropriation

By S. P. HOLLINGSWORTH
United Press Staff Correspondent
Harrisburg, Aug. 13.—Hospitals and homes receiving financial assistance from the state were given definite instructions today by Auditor General Samuel S. Lewis on the manner of preparing applications in accordance with the appropriation acts passed by the 1923 legislature.

For nearly two months this question has been hanging fire due to uncertainty of the provisions of the administrative code and the appropriation acts, which Auditor General Lewis finds, in some instances, are in conflict.

The action of the auditor general anticipates general confusion resulting at the close of the first quarter August 31, with the new procedure in operation.

The state aided hospitals are advised by Lewis that "changes in the law make it necessary to provide new forms for the regular quarterly reports." These forms, he told the trustees, will be forwarded to them before the time comes for making the report, rendered under the administrative code on a per diem basis for free services rendered. The reports first go to the Department of Welfare, Lewis advises.

The Trustees of the state aided homes are instructed by the auditor general to submit their requisitions on the same basis as heretofore, there being "no change in the requirements on the part of the department to obtain payment."

It was learned at the Welfare Department that few of the requisitions from all institutions under jurisdiction of that department have reached the office headquarters, the classification managers. Those that have come in have been improperly drawn and had to be sent back. Old forms were used in some instances and in others ordinary note paper.

Assistant Secretary Hunt stated that uncertainty as to the eventual outcome of the negotiations over quoted questions raised by the auditor general and the attorney general as well as the general confusion in all institutions due to changes in procedure have resulted in requisitions being held up pending settlement.

The auditor general assures, in his letters today, that the question so far as forms is concerned will be settled by his department.

(Continued On Page Two)

ROAD BOND ISSUE TO BE VOTED ON IS FIFTY MILLION

Among the proposed amendments to the constitution which will be submitted to the voters of Pennsylvania for their approval or rejection at the election to be held Tuesday, Nov. 6, is one authorizing the state to issue bonds for road construction. This amendment if approved will allow the commonwealth to borrow \$50,000,000.

In 1918, by a majority of 242,000 votes, Pennsylvania voters authorized the first bond issue of \$20,000,000. Since that time Pennsylvania has not the nation in road improvement. Not all of the roads have been built that are needed; hence the proposed new loan.

As amended in 1918, the state constitution provides that "the general assembly may authorize the state to issue bonds to the amount of \$20,000,000 for the purpose of improving and rebuilding the highways of the commonwealth." It is now proposed further to amend that section so that it will read, "The General Assembly may authorize the state to issue bonds to the amount of \$50,000,000 for the purpose of improving and rebuilding the highways of the commonwealth."

The impression is given by the phraseology of this resolution that the voters in November will be asked to authorize a bond issue of \$100,000,000. This impression is wrong. The proposed bond issue is for only \$50,000,000. The first half of the \$100,000,000 mentioned in the joint resolution has already been spent.

The difference between the "one hundred millions of dollars" mentioned in the advertisement and the \$50,000,000 authorized in 1918, is the amount the voters are asked to approve in the coming November election.

Since 1915, Pennsylvania has constructed almost 2,100 miles of durable highway—highway which concrete has entered in some form. The maintenance forces of the department of highways in the last five years have resurfaced over a thousand miles of macadam road. It is now possible to travel continuously on improved roads in Pennsylvania for a distance of 1,400 miles without covering the same ground twice.

With an additional \$50,000,000 Pennsylvania will be able to complete not only its primary highway system, the entire cost of which is paid by the commonwealth, but will also be able to build a large mileage of secondary roads.

CROP REPORT FOR MONTH OF JULY

Continued dry weather up until the last week of the month caused further decline in the condition of all crops in Pennsylvania according to the report issued today by G. L. Morgan, agricultural statistician for Pennsylvania, United States Bureau of Agricultural Economics.

Corn.
The condition of the crop on August 1 was 82 per cent of a normal, indicating a yield of about 40.3 bushels per acre and a production of 61,315,000 bushels as compared with 69,212,000 bushels last year and 64,470,000 bushels the average production for the past ten years.

Wheat.
The preliminary estimate of the average yield per acre of this season's crop was 18.5 bushels and the total production 24,106,000 bushels. This is compared with 25,234,000 bushels last year's final estimate and 24,197,000 bushels, the average production for the past ten years. The quality of this year's crop is estimated at 9.1 per cent of a normal as compared with 9.1 per cent last year and 9.9 per cent the average quality for the past ten years.

Spring Wheat.
The condition of the crop on August 1 was 80 per cent of a normal, indicating a yield of about 14.8 bushels per acre and a production of 207,000 bushels as compared with 210,000 bushels last year and 228,000 bushels the average production for the past five years.

Oats.
The condition on August 1 was 71 per cent of a normal, indicating a yield of about 27 bushels per acre and

SECOND ATTEMPT TO CAPTURE BERGDOLL ENDS IN FAILURE

Notorious Dodger from
Military Service During
War Badly Beaten
by Would-be Captors

TWO FROM THE U. S.

Myerbach, Baden, Aug. 11.—(By Cable)—Grever Bergdoll Friday night or a second time escaped from an attempt to kidnap him and spirit him across the border into occupied territory for delivery to American authorities for trial and punishment.

Bergdoll himself was badly injured, being beaten over the head with a rubber billy while his assailants were trying to stun and carry him off, a third, together with an American officer giving the name of First Lieutenant G. H. Griffith, and an American chauffeur, Walter Nelson, were captured and badly escaped by running at the hands of the enraged friends and sympathizers with Bergdoll.

The attempt was pulled off late Friday night in the dark corridor of the Hotel Post and Kroen, belonging to Bergdoll's cousin, while Bergdoll was going to his room about 11 o'clock.

Frank of Assistant Editor of "The Evening Post," provided in advance by Grever Bergdoll himself. Bergdoll, who is a native of New York, was the son of a Jewish family who fled to Germany in 1914, but came to Germany several days ago to see his mother, who is now in a hospital in Berlin.

These circumstances in the kidnapping plot, two Frenchmen and one Englishman, have been scouting around the hotel for the last eight days, spying out the lay of the land, the Frenchman remaining apparently in Berlin while the two Frenchmen spent their nights in Heidelberg to mislead suspicion and avoid danger. Their visit, however, did not escape notice. The Frenchmen were summoned by the police, ostensibly to obtain payment of the foreigners' tax, but really to ascertain their identity, and thereafter a sharp watch was kept on their doings.

Kidnappers Hid in Sticker's Hotel
Friday night they succeeded in entering the hotel unnoticed and lay in wait for Bergdoll in a corridor leading to his room. They attacked him with rubber clubs and also tried to drag him. Bergdoll resisted desperately, got the thumb of one of his assailants into his mouth during the struggle and bit it completely off. He finally succeeded in drawing his revolver and shot one kidnapper dead and severely wounded the second. The third who rushed to assist off, closely followed by gunmen, ran down the Heidelberg road toward the automobiles awaiting the kidnappers.

The police arrived before it was possible to get away and arrested Lieutenant Griffith, Nelson and the Russian.

An angry crowd gathered and threatened to lynch the prisoners but the gendarmes succeeded in leading them to jail.

The Eberbach population is today still in a very ugly mood and many threats are heard, but danger of violence to the prisoners is believed past.

The kidnapping attempt was well organized. All the conspirators were armed and provided with full maps of Eberbach and the surrounding country. A diagram of the hotel with the location of Bergdoll's room and a supply of narcotics to be used in stupefying Bergdoll and enable them to get him across the frontier as a drunken friend if stopped by the German frontier police.

Eberbach, Aug. 11.—The men waiting outside the hotel were in an old American Army automobile with an American shield on the side. They were arrested after being menaced by a crowd.

The German authorities said one

(Continued On Page Four)

HE WAS JUST A PAL TO THEM

Henry Ford, Harvey Firestone and Thomas Edison have started on their annual camping trip. But they have left their best friend behind. They came to see him, though, before leaving. But they saw him in his flag-draped casket. This picture was taken in front of Dr. Harding's home on the morning of the late president's funeral. Rev. Jesse Swank, pastor of the Epworth Methodist church in Marion, who offered the prayer as the casket was tenderly put into the vault, is on the extreme left. Bishop William F. Anderson of Cincinnati, who pronounced the benediction is on the extreme right. Ford stands next to the minister, then comes Firestone. Edison is second from the end on the right.

ODDS AND ENDS AND THINGS

By J. D. C.

The average American is working 38 minutes a week less than he worked two years ago. So reports national conference board. In the long run, the number of hours worked does not matter as much as how hard we work when we're on the job. It is quite easy to make a day's work of grinding an ax. The board finds that the average American works about fifty hours a week. Obviously, it didn't include the hours of housewives, whose work is never done.

Man's view of what happens after death are always interesting, in view of the mystery of the hereafter. The more prominent the man the more interest in his views or belief on this subject. Thomas A. Edison, the electrical wizard, in a comment made at President Harding's funeral, gave the following as his view of what happens after death:

"The soul after death takes flight," Mr. Edison said, "but in what form and manner is unknown."

Regarding spiritualism, Mr. Edison said he did not believe the spirit returned to earth and communed with those living, but he added, "we know that the soul does exist after death."

"I have not found it possible to demonstrate the existence of the life beyond the grave and I cannot say that men, including the beloved President Harding, live after death."

"There is a great directing head of things and people—a Supreme Being who looks after the destinies of the world. I have faith in a Supreme Being and all my thoughts are regarding the life after death—where the soul goes, what form it takes and its relations to those who are living."

"I am convinced that the body is made up of entities which are intelligent. When one cuts his finger, I believe it is the intelligence of these entities that heals the wound. When one is sick it is the intelligence of these entities that brings convalescence."

"You know there are living cells in the body so tiny that the microscope cannot show them at all. The entity that gives life and motion to the human body is finer still and lies infinitely beyond the reach of our finest scientific instruments. When the entity deserts the body, the body is like a ship without a rudder—deserted, motionless and dead. It is mere clay, as all orthodox Christians believe. I still believe in the religion of Our Lord and Master."

Edison says he "is seeking after the truth and has made much progress" in regard to life after death.

OLD FASHIONED CLOCKS

In lots of jewelry repair shops a casual glance is given these clocks and, "it can't be fixed," is the answer. Here we make a specialty of repairing these clocks and will go to any length to have them running for you as you would like to have them running. It's quite a knack to repair these as often times it requires the making of a piece right here in our shop, as the makers have gone out of business. But we know that these clocks are often time-hallowed heirlooms and you want them to run.

Bring them to us.

W. W. O'BRIEN

Each of the Presidents elected at twenty-year intervals since 1840 have died in office. William H. Harrison, who was elected in 1840, died one month after his inauguration in 1841. Lincoln, first elected in 1860, was assassinated five years later. Garfield, elected in 1880, was assassinated six and one-half months after assuming office. McKinley, elected for the time in 1900, was assassinated in 1901. Harding was elected in 1920.

Did you know there is a Pan-American international committee of women? Well, there is. It was created at a recent scientific conference of all the American republics. It is planning to put on a fine common celebration on Columbus day, October 12, 1928. On this date, in each of the separate countries of the Americas, it will hold big meetings and conferences at which there will be speeches and interesting events which will acquaint each country with the aims, activities and accomplishments of the other American republics. This will lead all of the countries of North and South America to become better acquainted all around, and, "If we knew each other better, we would love each other more."

THE WEATHER THIS WEEK

Weather outlook for period Monday, Aug. 13 to Saturday, August 18, 1923 inclusive.

Generally fair, except occasional thunder showers. Normal temperature.

STATE AID HOSPITAL

(Continued From Page One.)

In the case of the \$5,000 appropriation to insane institutions and other appropriations to state and semi-state institutions, it is likely, payments will be held up until the contemplated suit between the attorney general and the auditor general is settled.

A total of \$15,176,200 has been appropriated by the legislature to institutions coming under jurisdiction of the Welfare Department, according to figures of the Secretary of the Commonwealth. The state owned institutions are to receive \$10,138,800, the semi-state institutions \$76,000, state-aided hospitals \$3,723,400 and the state aided homes and institutions \$554,000, according to the budget officer's figures.

TWILIGHT LEAGUE BASEBALL

The Reedsville Indians play at Glen Richey tonight. They will meet the O'Shanter team on the Reedsville diamond Wednesday evening.

The West Side team beat the Indians 10 to 6 last Friday evening, instead of 6 to 0 as the types made us say Saturday evening. It was the first defeat for the Indians this season and they naturally wanted the figures to be right.

Progress "Want" ads bring results.

CUNO QUILTS POST AS CHANCELLOR

(Continued From Page One.)

the British suggestion, it was learned semi-officially today.

Semi-official analysis of the British note said the whole tendency of the Downing street communication was to demand diminution of the French claims and abandoning all guarantees, which France considers impossible.

It was considered probable Poincaré would reply protesting the British points which he regards erroneous. Semi-officially it was pointed out that with the exception of a few points, the British note in Cuzon's recent communication is exactly the same as in the past. Hence France can only be consistent and make the same reply as in the past—a refusal.

NOTICE BAPTISTS

The pastor of St. John's Baptist church will arrive on August 17. Come and hear him preach on Sunday, Aug. 19th, 11 a. m. and 8 p. m.

WILL DRIVE TO CALIFORNIA

Mr. and Mrs. Hy Waters will leave tomorrow for Roseville, California, where they go to visit Mr. Waters' mother. They will make the journey in their car, taking with them a camping outfit and will make their camp where night overtakes them enroute.

FUNERAL OF MRS. ELIZABETH RINEHART

The funeral of Mrs. Elizabeth Rinehart of Graham township, whose death occurred Sunday, will be held from the home of her grandson, Frank Rinehart, at Bigler tomorrow afternoon at 1 o'clock. Services will be held at Fairview church and interment will be made at Fairview cemetery.

AN EASY WAY TO HELP

Community Service Tag Day on Thursday the 16, all day. All over town. If you are the street crowd, the Chautauqua crowd or the Park crowd see that you have a tag. If you are interested in Playgrounds, Girl Scouts, Twilight League baseball, horseshoe pitching or a community recreation of any sort, this is one of the ways to show it.

THE TRUCK REPAIR SHOP IS A BUSY PLACE DURING THESE DAYS WHEN TRUCKS ARE OVERWORKED

The rainy spell has put back all kinds of building and the delivery and hauling of supplies is getting to be a matter of minutes. Trucks, in consequence, are mightily overworked and need attention more than usual. We give these trucks this attention and the owners are loud in their praises of this same service.

101—Bids Wanted

NOTICE TO CONTRACTORS AND BUILDERS
School Board of the School District of the Township of Morris, Clearfield County, Pa.

All bids for the erection and completion of a ten-room brick, steel and concrete school building having been rejected.

Sealed proposals will be received for the erection of a one-story, eight-room brick cased or solid wall school building with an auditorium, to be erected on the school building site at Morrisdale.

Proposals marked proposals for school building and must be in the hands of the President not later than August 15th, 1923, 6 o'clock p. m.

The board reserves the right to accept any or reject any or all proposals submitted or to let the contract by item if in their judgment the interest of the school district so requires.

Send all bids to William Slee, President, Morrisdale, Pa. 7/30 8/6/23

ERITON TROUNCES LOCAL TEAM 5-3 SATURDAY, AUG. 11

The fast-going Eriton baseball team came over to Clearfield Saturday afternoon and added another scalp to their string of trophies by taking our American Legion team into camp by a 5 to 3 score.

Bowes did the twirling for the local team and outpitched Eriton's star "Slick" Droney and should have had an easy victory, but headless, footless and witless base running simply forced the game on the enemy.

Three times—count them—three juicy times—were rallies nipped in the bud because baserunners went to sleep on the base lines and were "snapped" out by Catcher Liptac before they woke up.

Eriton opened the ball by scoring a run in the very first inning. Kiel got a base on balls, but was forced at second by Williams. Love fanned but Mahaffey's fumble gave Droney a life, Williams scoring. They added three more in the fourth on a fusillade of four singles and a double, aided by some bum chucking of the ball from the outfield. A couple of errors and a base on balls gave them their last tally in the sixth.

Clearfield was blanked by Droney until the fourth, when three successive singles drove a run across the plate. Several chances to score were thrown away before and after this round by the headless base running complained of. In the eighth McCloskey opened with a double and Captain Townsend brought the crowd to its feet with a roar when he straightened one of Droney's benders, the ball hitting the track in right and rolling under the fence for a homer chasing "Little Mac" in ahead of him. Shawlis followed with a single, his third hit of the game, but Droney grinded up his loins, settling down prevented further scoring.

The score:

Eriton
Kiel, 2b 0 1 0 1 0
Williams, ss 1 1 2 2 0
Love, 3b 0 0 4 1 0
Droney, p 0 0 0 3 0
Kline, 1b 0 0 7 1 3
Hoeblering, rf 1 1 2 0 0
Stouch, mf 2 1 0 0 0
Liptac, c 1 1 9 1 0
Didaro, lf 0 0 3 0 0
Brown, lf 0 1 0 0 0
Totals 5 6 27 9 3

Clearfield
McCloskey lf 1 2 2 0 0
Townsend, 1b 1 1 8 0 0

Why is a bad boy bad? What is responsible for the juvenile law-breaker, who so often grows into the adult criminal? Twenty-five years ago no one stopped to think; they merely punished him. Now society, realizing that all effects have causes, is investigating those causes. Towns and cities are rapidly learning that an ounce of prevention in the form of thoughtful supervision of children's leisure time is worth a pound of cure in the form of courts and jails.

The lack of suitable places to play is responsible for a vast amount of juvenile crime. It is in their hours of leisure that boys and girls commit their first offenses, which nearly always prove to be the result of thwarted play instinct. The game-forming instinct is merely the team-play instinct gone wrong.

CROP REPORT

(Continued from Page 1.)

A production of 32,079,000 bushels as compared with 41,242,000 bushels last year and 39,393,000 bushels the average production for the past ten years. The percentage of last year's crop still remaining on farms is estimated at 6.3 per cent or 2,589,000 bushels. Last year's estimate was 2,470,000 bushels and the ten year average stocks is 2,556,000 bushels.

Rye.
The preliminary estimate of the average yield per acre of this season's crop is 16 bushels and the production 3,682,000 bushels as compared with 3,740,000 bushels last year and 4,012,000 bushels the average production for the past ten years. The quality this year is estimated at 92 per cent of a normal as compared with 93 per cent last year and 93 per cent the average quality for the past ten years.

Barley.
The area seeded this season is estimated at 3 per cent less than a year ago or 241,000 acres. The condition of the crop on August 1 was 79 per cent of a normal indicating a yield of 17.4 bushels per acre and a production of 4,294,000 bushels as compared with 5,208,000 bushels last year and 5,411,000 bushels the average production for the past ten years.

White Potatoes.
The condition of the crop on August 1 was 68 per cent of a normal, indicating a yield of about 78.9 bushels per acre and a production of 20,430,000 bushels as compared with 28,512,000 bushels last year and 24,398,000 bushels the average production for the past ten years. The total potato crop in the United States is estimated at 37,708,000 bushels as compared with 45,100,000 bushels last year and 388,000 bushels the average production for five years 1917-1921.

Hay.
The condition of all tame or cultivated hay was 62 per cent of a normal indicating a yield of about .94 tons per acre and a production of 2,879,

000 tons as compared with 4,880,000 tons last year and 4,278,000 tons the average production for the past ten years. Condition of timothy was 65 per cent of a normal as compared with 94 per cent last year and 89 per cent the average condition for the past ten years on August 1. Clover was 60 per cent of a normal as compared with 97 per cent last year and 86 per cent the ten year average condition. Alfalfa condition was 79 per cent of a normal as compared with 95 per cent last year and 92 per cent the average condition for the past ten years on August 1. The condition of wild hay on August 1 was 68 per cent indicating a yield of 30 tons per acre and 26,000 tons the average production for the past five years.

Other Crops.
The condition of other crops in Pennsylvania, the condition for last year and the condition for the past ten years on August 1 are as follows: Millet, 60, 80, 82; pastures 55, 89, 87; grain sorghum 65, 80, 82; cowpeas 92, 90, 91; soy beans 80, 87, 89; tomatoes 75, 90, 89; cabbage 76, 90, 91; onions 76, 90, 91; melons 67, 79, 80; blackberries: The total reduction this season was estimated at 70 per cent of a normal as compared with 90 per cent last year and 84 per cent the average production for the past ten years.

Fruit.
Apples: the condition of the total or agriculture crop on August 1 was 63 per cent of a normal indicating a production of 10,706,000 bushels as compared with 11,400,000 bushels last year and 10,731,000 bushels the average production for the past three years. The commercial crop this season is estimated at 1,249,000 barrels as compared with 1,216,000 barrels last year and 995,000 barrels the average commercial production for the past three years. According to report received from several hundred commercial growers throughout the state, the percentage of this year's crop which will be of different varieties are as follows: 15 per cent Summer 35 per cent fall and early winter and 50 per cent late winter. The com-

TWO GIRLS LOST IN BLACK FOREST OF POTTER COUNTY

Coudersport, Aug. 12.—Miss Bertha Wold, daughter of Mr. and Mrs. Peter Wold of Austin, and Miss Dorothy Willard of Schoenectady, underwent an exciting experience last Friday when they were lost in the Black Forest in the neighborhood of Corbett, Potter county. Miss Wold is an instructor of nurses in the Post Graduate hospital in New York City, and Miss Willard is the daughter of Cora Buck Willard, formerly of Coudersport.

Together they conceived the novel idea of a vacation trip on horseback to Austin to visit the parents of the former and Mr. and Mrs. George Storer, relatives of the latter. Leaving Schoenectady on Sunday, July 22, they spent two weeks in covering the 327 miles, traveling by way of Cobleskill, Oneonta, New Millport, Montrose, Susquehanna, Mansfield, Troy, Wellsboro, Galeton and Halls and reaching here late Saturday afternoon.

All went well until Friday evening when in attempting to take a short cut through the woods they became lost in the Black Forest. They dismounted and walked until dark then built a little fire, tethered their horses and took turns watching for bears, wild cats and snakes, which however, failed to appear. At daylight they started again and found their way to the pike where some men gave them water—the first they had had for 24 hours. The remainder of the trip was easily accomplished and they are now resting and entertaining their friends with tales of their experience.

Central News Dispatch Gives Names Of The New German Cabinet

London, Aug. 13.—The new German cabinet has been completed as follows, according to a Central News dispatch from Berlin today:

Chancellor and Foreign Affairs—Strossemann.
Finance—Hallerding.
Economy—Baumer.
Railroads—Heuerick.
Justice—Radbruch.
Interior—Fuchs.

The portfolios of Posts and Labor are unchanged.

\$100,000 Crude Oil Fire At Philadelphia Cause Of Much Concern

Philadelphia, Pa., Aug. 13.—Firemen early today, after a twelve hour battle, extinguished a \$100,000 fire in the Atlantic Refining Company yards here that burned more than 1,000,000 gallons of crude oil.

The fire started when a huge oil tank was struck by lightning during a storm Sunday afternoon. With a roar that could be heard for miles a streak of flames shot into the air. Burning oil scattered in all directions.

Twenty firemen were overcome by the intense heat from the burning oil and by smoke.

Pirates Rob Canadian Schooner Of \$6400 And 200 Cases Of Whiskey

Halifax, Aug. 13.—Captain John Simms of the schooner Dominion Packet reported that his craft had been boarded by rum pirates off Long Island August 5 and looted of \$6,400 and 200 cases of whiskey.

Six pirates in a powerful motor launch approached the schooner evidently to buy liquor, but once on board overpowered the Dominion Packet crew of eight men, Simms said.

Commercial crop of the United States is estimated at 22,877,000 barrels as compared with 31,000,000 barrels last year and 2,700,000 barrels for the preceding five years, 1917-1921.

Peaches: the condition of the crop on August 1 was estimated at 69 per cent of a normal, indicating a production of 1,709,000 bushels as compared with 1,560,000 bushels last year and 1,303,000 bushels the average production for the past three years. The total production for the United States is estimated at 42,272,000 bushels as compared with 56,700,000 bushels last year and 42,700,000 the average production for the last five years, 1917-1921.

Pears: the condition of the crop on August 1 was 57 per cent of a normal indicating a production of 544,000 bushels the average production for the past three years.

Grapes: The condition of the crop August 1 was 84 per cent of a normal as compared with 95 per cent last year and 76 per cent the average condition for the past ten years on August 1. The condition this season indicates a total production of about 17,987 tons.

FRANKLIN GROCER IS KILLED; COMPANION SEVERELY WOUNDED

Franklin, Pa., Aug. 13.—Roy Leach, 41, a grocer of Franklin, and Albert D. Reynolds, 46, were instantly killed and J. M. Duncan of Cooperstown was injured in two automobile accidents a few miles north of here late Sunday.

Reynolds and Leach were killed shortly before midnight when their machine went into a ditch and overturned.

Duncan was injured just as his car failed to make a turn near Wyattville and overturned, breaking his neck. Duncan is not expected to live.

\$2500 FIRE AT HARRY R. EVANS' HOME

The residence of Harry Evans, located at the corner of West Locust and William streets, was damaged to the extent of \$2500 by a fire which was discovered about 10:15 o'clock Sunday morning. Mr. and Mrs. Evans were at Sunday School at the time and Mrs. Mary Gearhart, mother of Mrs. Evans was alone in the home at the time the fire was discovered. Dinner was being prepared on an oil stove and it is thought a pot on the stove boiled over and the boiling water running into the boiler caused the oil to flame up igniting the curtain on a small window over the stove, during the absence from the kitchen of Mrs. Gearhart.

The fire communicated with the side wall of the kitchen and was burning quite fiercely when discovered. Manager Hamilton of the Independent Oil Works attempted to send in the fire alarm but met with considerable delay in being unable to get central. When the alarm was given the exchange girl she put No. 36 wheel on instead of No. 32 and the mixup in signals resulted in further delay for the firemen. When they did get the blaze located it did not take the firemen long to conquer the fire, but by that time the kitchen and dining room had been pretty badly gutted.

The damage to house and contents is placed at \$2500 by Mr. Evans, which is partially covered by insurance.

WOODLAND BOOSTERS CLUB MEETS THIS EVENING

The regular Booster Club dinner will be served at the Woodland Hotel promptly at seven o'clock this evening. Every member should be present.

SECOND ATTEMPT TO CAPTURE BERGDOLL

(Continued From Page One.)

was an American Army lieutenant and the other a Russian Prince.

Eberbach, Germany, Aug. 13.—Roger Sperber, who was twice wounded and had his thumb bitten off by Grover Cleveland Bergdoll, during the attempted kidnapping, in which the noted draft dodger killed one of his assailants, is understood to have admitted to the German authorities that the American Legion in Paris offered \$10,000 for the successful capture of Bergdoll.

Lieutenant Hoover Griffith, U. S. A. instigated the plot that failed so dramatically, according to Sperber.

The notorious slacker learned of the plot from observing an automobile following him about for several rides yet went alone to his hotel room Friday night and fought off two of his attackers, killing Karl Schmidt and wounding Sperber.

Mrs. Bergdoll, the draft dodger's wife, exclaimed when she learned of the attempt: "If I would have been there I would have killed all the scoundrels."

Bergdoll with several stitches in his head but otherwise none the worse for the experience went to Heidelberg with his mother.

The elder Mrs. Bergdoll said she will remain in Germany "until full pardon is granted Grover in the home where he now is persecuted."

Progress Editorial For Women

ALONE
By FLORENCE DAVIES

Back home and alone, Florence Harding is yet not alone. A thousand tender voices speak to her, a thousand hands are held out to her to help her along the lonely darkened way.

They are the voices and the hands of happy memories, the abiding consciousness of duties well done, of love that never faltered.

That consciousness in itself must be a benediction that will banish forever the bitterest cruelty of grief. "Whatever honor has come to me this day I owe to Florence"—around her lonely heart she may wrap those words and rest in them. What a memory to rest upon. How vastly sweeter is loneliness than a living presence tinged with discord and regret.

But who wouldn't walk beside one's husband, hold up his hands in every way, play his game, support his policies, work and plan and pray for his ideals and ambitions, if that husband were president of the United States? Who indeed? It's easy enough to be "the Duchess," helping, smiling, working, in the White House, where honors are showered down like rose petals in June.

Almost any woman would play her husband's game if it led up the great

steps to an executive mansion. But that is not Mrs. Harding's story. She was "The Duchess," back in the old days when her salon was held in a newspaper office, and when playing her husband's game didn't mean shaking hands with the ambassadors from the courts of Europe, but bossing a crew of newsboys who carried her husband's paper on their afternoon routes.

Then as now she was every inch the Duchess, his duchess, never embittered by early struggles, never spoiled by the aftermath of money and fame.

Only a few men in every generation may become the nation's president, but countless thousands may wring mastery from defeat and happiness from drab existence, and countless thousands of women can help to make it possible if they catch a glimpse of Florence Harding's life.

For that example, American women who have revered her as the president's wife must be eternally grateful. It must always hearten and stimulate them. That is what she has done for the rest of us.

For herself, she has the unspeakable blessing of a perfect after glow. Warren Harding's flame has flickered out. But the afterglow burns on in Mrs. Harding's heart in eternal beauty.

CITY OF MILWAUKEE WARS ON GASOLINE PRICES; PRICES CUT

Milwaukee, Wis., Aug. 12.—The city of Milwaukee will start selling gasoline for 13.5 a gallon for low tests and 14.8 for high tests in an effort to drive down prices here.

\$5,000 worth of the fuel will be distributed to the public through the city filling station, Alderman Arthur Shuklin and James S. Duncan, Secretary Major Doan announced.

The price represents cost and is about 10c a gallon less than present filling station prices.

BANISH THIS ENEMY OF DAINTY HANDS!

All the care in the world cannot erase the ravages that steaming water and soap work on a woman's soft hands. A few weeks of wash day toil will leave them harsh and rough as surely as the seasons change.

And it is all so useless—

For, at a cost no greater than that of your own time and trouble, you can secure our Rough Dry service. You can have all the washing done, all the flat work ironed, all woollens, bath towels and stockings fluffed soft and dry—just the lighter pieces of wearing apparel left for you to dampen and iron at your convenience.

This next washday—phone our representative to call.

Thomas A. Bauman, of Woodbury Township, P. O. address Glanta, Pa., subject to the rules of the Democratic Party.

FOR COUNTY COMMISSIONER

John G. Mannes of Bradford township, subject to the rules of the Republican Party.

FOR REGISTER & RECORDER

O. Bruce Porter of Clearfield Borough, subject to the rules of the Republican Party.

FOR REGISTER AND RECORDER

Milford Branton of Clearfield Borough, subject to the rules of the Republican Party.

HUSKY KIDDIES ALL OVER CLEARFIELD DRINK OUR MILK

The huskiest kiddies that you will find anywhere in the city will be found to be, upon inquiry, kiddies that have been brought up on our milk.

These kiddies, too, you will find have been particularly free from the usual rash of summer diseases that kiddies are heir to simply because they have been fed our pasteurized milk.

The pasteurization process removes all the possible contamination that might be in the milk and is insurance that, if you will give your kiddie plenty of it, that this same kiddie is getting the best milk possible.

Clearfield Dairy Co.

MANY SEEK SHORT CUTS TO WEALTH

There is too much envy of wealth and too little willingness to work for it. Hard work and regular savings, with the interest earned, have enabled many a poor man to acquire riches, and many of the world's richest men started only with determination to work and save regularly. Those who save regularly usually win. A savings account in which regular weekly or monthly deposits are made, is the proper beginning. Start one today. It will help you to acquire things you desire.

Clearfield National Bank
"The Bank of Personal Service"

Curwensville's Own Column

Harry Lines is the champion snake player in this section so far as there is any record. Saturday he killed a huge fellow out near the Kartstetter mill which measured 44 inches in length and as thick around the middle as an ordinary man's arm. The reptile put up a good battle for its life but a club wielded by a strong right arm of one who is not afraid of rattlers, proved unavailing and it went the way of all snakes when confronting with man. A lad brought the snake into town, and after having been viewed by many who had never seen a rattler, took it home and jerked its hide off with which to make himself a belt.

Mrs. Samuel Thompson and child, of Harrodsburg, spent the latter part of last week with the family of Orville Thompson.

William McKinney, who has been resident of Curwensville for a number of years, is selling off his household goods and contemplating removing to Centre county to make his home with one of his daughters. Mr. McKinney is one of the true veterans of World War, having served a full five year term.

Miss Lottie Bisher has returned from a visit with his folks at Youngstown, O.

Ralph Hoppy, who was working on a building near New Millport Saturday, fell from a scaffolding, receiving some painful and severe injuries. The injured man was brought to the office of Dr. Echari but unfortunately he was out on a trip. Hoppy was then taken to the hospital, where it was found that a jaw bone had been displaced, a huge splinter of wood in the neck, and several minor bruises. He was very fortunate in that he was not killed by his fall.

William McDonald took a motor trip to Gettysburg and other points of historic interest on Saturday.

Miss Alice Ammerman of Philipsburg spent the week-end with Curwensville relatives and friends.

Mrs. John Murray and three children, Misses Alice Murray, Kate Smith and Mabel Leonard left on Sunday for a three days sojourn at Buffalo, Niagara Falls and intermediate points.

Mrs. A. G. Woodward and Mrs. Murphy, sons, etc., have returned from a week's trip to Washington, D. C., Gettysburg and other eastern cities and towns.

Mr. and Mrs. David Ried and Mr. and Mrs. John Rapp attended the big British picnic and reunion at Sunae Park, Cambria county, last Saturday.

The Bull gate leather tannery at this place has cut down the usual daily output from 75 per cent to 50 per cent. This reduction will only be for a short space of time.

Residents of Ridge avenue are complaining of the condition of the road leading to their vicinity. The State Highway by cutting off the ground at the junction of the road put it in such a shape that it is almost impossible for any vehicle to get onto Ridge avenue with a load of coal or most anything else. We do not know whether it is the duty of Borough Council or the State Highway men to fix this.

RUSSELL HOWARD SUFFERS HEART TROUBLE SATURDAY

DuBois, Aug. 12.—Russell G. Howard, a well known architect of this city, suffered from a severe heart attack on Saturday afternoon and as a result his condition at present is rather a serious one.

Mr. Howard, in company with several other men, was at the country club and was in the act of getting ready to play tennis when he was stricken. He was assisted into the club house and rendered what temporary aid could hastily be summoned. After recovering somewhat he was placed in a car and brought over town to a physician's office. A thorough examination was made and it was found advisable to remove him to his home where he has been under constant treatment.

Reports from the Howard home last evening were to the effect that he was getting along as well as can be expected, and that his condition over Sunday was encouraging in the hopes for an early and complete recovery.

KNARR REUNION

A reunion of much importance in view of the fact that it concerned the family that stands third in the rank of the families that settled in Clearfield county, occurred Aug. 9 at the Pines, known as Zimmerman Park near Troutville. About three hundred of the descendants of George Adam Knarr and their friends gathered for the fifteenth annual reunion of the Knarr Reunion Association of Clearfield County. The union of the descendants for the fifteenth time proved interesting as well as entertaining. The usual basket picnic dinner which in this case was quite large and marked by the fine layout of good things to eat was an important adjunct of the occasion, while the afternoon was spent in various ways to suit the tastes of the individual. A literary program in which a number of able speakers took part was the chief feature of interest. The opening address of welcome by R. M. Knarr of Clearfield followed by Reuben Weisgarber of DuBois, was instructive and entertaining. Hon. J. E. Phillips gave a short address that was much enjoyed and A. R. Chase gave a very interesting talk on the Old Settler, Then and Now.

Why Busy People Have Leisure.
They say that the busiest people have the most time to give in service to others, can turn clear attention to a new subject at an instant's notice. This is simple because the busiest people, the ones who are accomplishing the most, have learned the art of prompt action, of quick dismissal of what has to be done. They can give you at any moment undivided attention because their minds are clear and ready.

Corry Falls Before Mean Twists of Local Horse Sheer's Wrists

The Clearfield horsehoe pitchers have returned from Corry with the palm as was expected. Corry was not ready but got that way in a hurry—hand bills and tickets were rushed on to the streets and the crowd was there. The \$25.00 that was so painfully scraped together here was gathered in short order, and the cordial sports spirit was the same that was shown when they came here. The score seems to indicate that honors are even—Clearfield has the pitchers and Corry the public interest. As has been a ready mentioned in this paper, the local club expects to be represented at the national tournament at Cleveland in September. It is not fair to expect men to bear all the expense when the town is bound to get some good advertising out of it. The answer to the local tournament scheduler always to be found in the paper, so those who are at all interested are asked to come around and see what their men are doing and chip in a little toward the needed expenses. There is an outlay needed for which there are no funds—lighting, benches and so on.

The scores:

	Single.	P.	R.	D.
1st Game—				
Johnson	50	13	1	
Anderson	14	4	0	
2nd Game—				
Plint	50	11	4	
Sullivan	24	7	2	
3rd Game—				
Smith	50	13	2	
McLone	26	7	2	
4th Game—

Protecting Turkeys From Coyotes.
In certain parts of the West flocks of domestic turkeys on frontier farms are protected from attacks by coyotes by tying small bells to the necks of the gobblers. The tinkling of these bells is sufficient in most cases, to keep the animals away while not infrequently unprotected flocks which have wandered in from home are annihilated by the beasts. Popular Mechanics Magazine.

DIAMOND JUBILEE OF P. O. S. OF A. BEGINS AUGUST 25

The Diamond Jubilee Anniversary of the Patriotic Order Sons of America will be celebrated in Philadelphia from Saturday, August 25th to Sunday, Sept. 2nd. Five conventions of the Order will be held during this time. The Commandery, General the official uniform rank will hold their convention Monday, Aug. 27th. The Pennsylvania State Camp P. O. S. of A. will meet Tuesday and Wednesday. The Pennsylvania State Camp Patriotic Order of Americans the ladies branch of the Order will meet Thursday and Friday. The Rough Riders, the playground of the Order will meet Thursday morning and the National Camp will meet Thursday afternoon and Friday.

The big event of the whole Jubilee will be the Street Pageant, Saturday afternoon, September first. Twenty-five thousand Marchers, fifty floats and one hundred bands are registered for the pageant from all sections of the country, as far west as the State of Washington, and South to Florida and New Orleans. The Pageant will form between Columbia Avenue and Diamond streets, and the official route will be from Columbia Avenue to Reed on Broad street.

Broad street will be decorated the finest of this splendid parade street's history. The City has awarded the contract for decorating the same to the Model Sign Company of 9th & Venango Streets and all of the Electric Light posts in the center of Broad street from Diamond to Dickinson will contain beautiful decorations. These decorations are being made as the property of the City, by suggestion of C. B. Helms, State Secretary of the P. O. S. of A. and will be for conventions holding celebrations in the future.

Camps and Commanderies from all sections of the United States have filed their registration cards for parades. Special trains will reach the city from all parts of Maryland, New Jersey, Delaware and Pennsylvania on Friday and Saturday, Aug. 31st and September first.

The events will commence with the Commandery parade on Saturday, August 25th from City Hall to Moyer Hall at Broad above Thompson Street, where the advancement ceremonies will be held. The Staff of Corbin Commandery of New Britain, Conn., will do the work.

Sunday afternoon, the beautiful Betsy Ross Memorial will be dedicated in Mount Moriah Cemetery. The memorial is erected waiting for the day of dedication. A parade will form in connection with this dedication at 10th and Woodland Avenue at two o'clock, march down Woodland ave.

S.S.S. stops Rheumatism

"MY Rheumatism is all gone. I feel a wonderful glory again in the free motion I used to have when my days were younger. I can thank S.S.S. for it all!" Do not

close your eyes and think that health, free motion and strength are gone from you forever! It is not so. S.S.S. is waiting to help you. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S.S.S. is the great blood-cleanser, blood-builder, system strengthener, and nerve invigorator.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

Gossip For Tonight's Tea Table

Mr. and Mrs. C. T. Kurtz, Mr. and Mrs. P. G. Smith, and Mr. and Mrs. Clarence Stewart have returned from a week's visit with Mr. and Mrs. Charles Wood, of Montour Falls. Mr. and Mrs. Stewart of Pittsburgh are the house guests of Mr. and Mrs. P. G. Smith, of West 1st street.

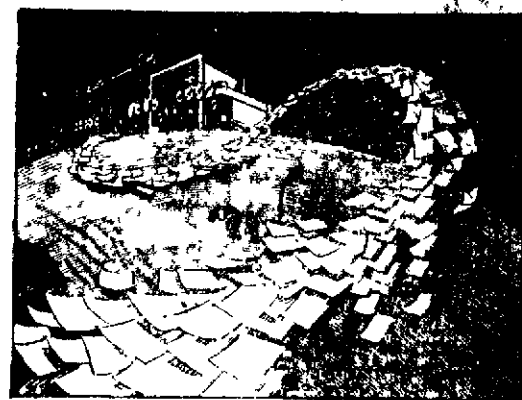

to 60th, up 60th to Kingessing, out Kingessing to Mount Moriah cemetery where the exercises will be held. State President Bover will preside at the cemetery.

Sunday evening in the Bellevue Stratford Hotel, the anniversary Service will be held with a special program. A large orchestra will furnish music and an address will be made by National President Gabriel H. Moyer and the Anniversary Sermon will be preached by Rev. Walter H. Egge, the National Chaplain of Lebanon.

Monday evening, the Anniversary Reception Ceremony will be held in the Bellevue Stratford Hotel, when the Mayor and a representative of the Chamber of Commerce will extend the welcome of the city. Responses will be made by the heads of the various departments of the P. O. S. of A.

The Anniversary Banquet will be held in the First Regiment Armory, Wednesday evening, August 29th, when three thousand persons will sit down to the festive board. Here a most extensive and ambitious program will be rendered. Sight seeing trips, boat rides, auto trips to Valley Forge, picnics at Willow Grove and other entertainment have been arranged for the thousands of visitors.

Tip From the West.
"The wise husband," says the Pawnee Journal, "reserves the place in his twelve greatest women list for use in the immediate family."—Boston Evening Transcript.

What's Changing Us?

What will History call this present age? It was the printing-press (wasn't it?), that changed our conditions of Life.

But the printing-press did its great work at a price. It definitely affected the eyesight of the race. This present era may well be called the Age of Eyestrain.

At first man's average range of vision was 40 feet and over. Then, to read the first big black letters it was occasionally pulled in to arm's length. Today small type taxes our eyes endlessly at an average range of only 14 inches.

But science has kept pace with this growth of printing, finding measures for the relief of the eyes. For what is more important to happiness and success than efficient eyesight? Fancied ability to see is not a test of vision. Eyestrain produces headache, nervousness, overtaxed eye-muscles, bloodshot eyes and other discomforts. With glasses you are protected—your eyes properly adjusted, nerve-strain relieved. A complete eye-examination is the one way to be safe.

DRUG STORE**

WESTINGHOUSE ELECTRIC IRONS

\$5.50

Why stand and iron in the hot, sweltering kitchen when you can take your ironing board out on the porch and attach one of the Westinghouse Electric Irons to your porch light plug and iron where it is at least thirty degrees cooler than in the kitchen?

These irons have a current-saving heating device and you'll find that ironing does not hold the terrors that it did as soon as you have done your first ironing with them.
